

A mural is any piece of artwork painted or applied directly on a wall, ceiling or other large permanent surface. A particularly distinguishing characteristic of a mural is that the architectural elements of the given space are harmoniously incorporated into the picture. **Mosa Murals**

Mosa Murals®

This book contains a number of images and video clips that can be easily identified by the camera icon. The images contain an invisible Digimarc code that is recognized by a smartphone or tablet. Download the free Digimarc Discover App and hold the smartphone or tablet 8 - 15 cm above the image. The clip will immediately be available to view.

Diese Broschüre enthält mehrere Abbildungen mit Videoclips, die am Kamerasymbol zu erkennen sind. Die Abbildungen beinhalten einen unsichtbaren Digimarc Code, der von Smartphones oder Tablets erkannt wird. Nach dem Download der kostenlosen App Digimarc Discover können die Clips sofort angesehen werden, indem das Smartphone oder das Tablet in einem Abstand von 8 - 15 cm über die Abbildung gehalten wird.

In dit boek staat een aantal afbeeldingen die videofragmenten bevatten, herkenbaar aan het symbooltje met de camera. De afbeeldingen bevatten een onzichtbare Digimarc code die door smartphone of tablet herkend worden. Download de gratis Digimarc Discover App en houd de smartphone of tablet 8 - 15 cm boven de afbeelding. Het fragment is dan direct te bekijken.

Ce catalogue reprend plusieurs images comprenant des extraits de vidéos, reconnaissables au symbole caméra. Les images contiennent un code Digimarc invisible reconnu par les smartphones et tablettes. L'application gratuite (Digimarc Discover) est téléchargeable. Il suffit ensuite de maintenir le smartphone ou la tablette entre 8 et 15 cm au-dessus de l'image. L'extrait vidéo peut alors être visionné directement.

Mosa

Mosa Murals is an innovative concept for ceramic walls by Mosa. Mosa is a leading tile manufacturer that primarily focuses on the international architectural market. Mosa's core values are design, functionality and sustainability. Mosa has acquired vast expertise in the ceramics field over the course of many years and has its own factories equipped with unique technology to produce wall and floor tiles.

Mosa Murals ist ein neues Konzept für Keramikwände von Mosa. Mosa ist als führender Fliesenhersteller bekannt, der sich in erster Linie auf den internationalen Architektenmarkt konzentriert. Die Kernwerte von Mosa lauten Design, Funktionalität und Nachhaltigkeit. Mosa verfügt über jahrelange internationale Erfahrung im Bereich Keramik und besitzt eigene Produktionsstätten für Wand- und Bodenfliesen, in denen besondere Technologien eingesetzt werden.

Mosa Murals is een vernieuwend concept voor keramische wanden van Mosa. Mosa staat bekend als toonaangevende tegelproducent die zich primair richt op de internationale architectenmarkt. Design, functionaliteit en duurzaamheid zijn Mosa's kernwaarden. Mosa heeft jarenlange internationale expertise in keramiek en beschikt over eigen fabrieken voor wand- en vloertegels met unieke technologieën.

Mosa Murals est un concept innovant de murs en carreaux de céramique de la société Mosa, reconnue en tant que leader dans la production de carrelages destinés principalement aux architectes à un niveau international. Design, fonctionnalité et développement durable sont les valeurs clés de Mosa, qui fait preuve d'une expertise internationale en céramique depuis de nombreuses années et fabrique les carreaux muraux et de sol dans ses usines selon des technologies originales.

Mosa wall tiles

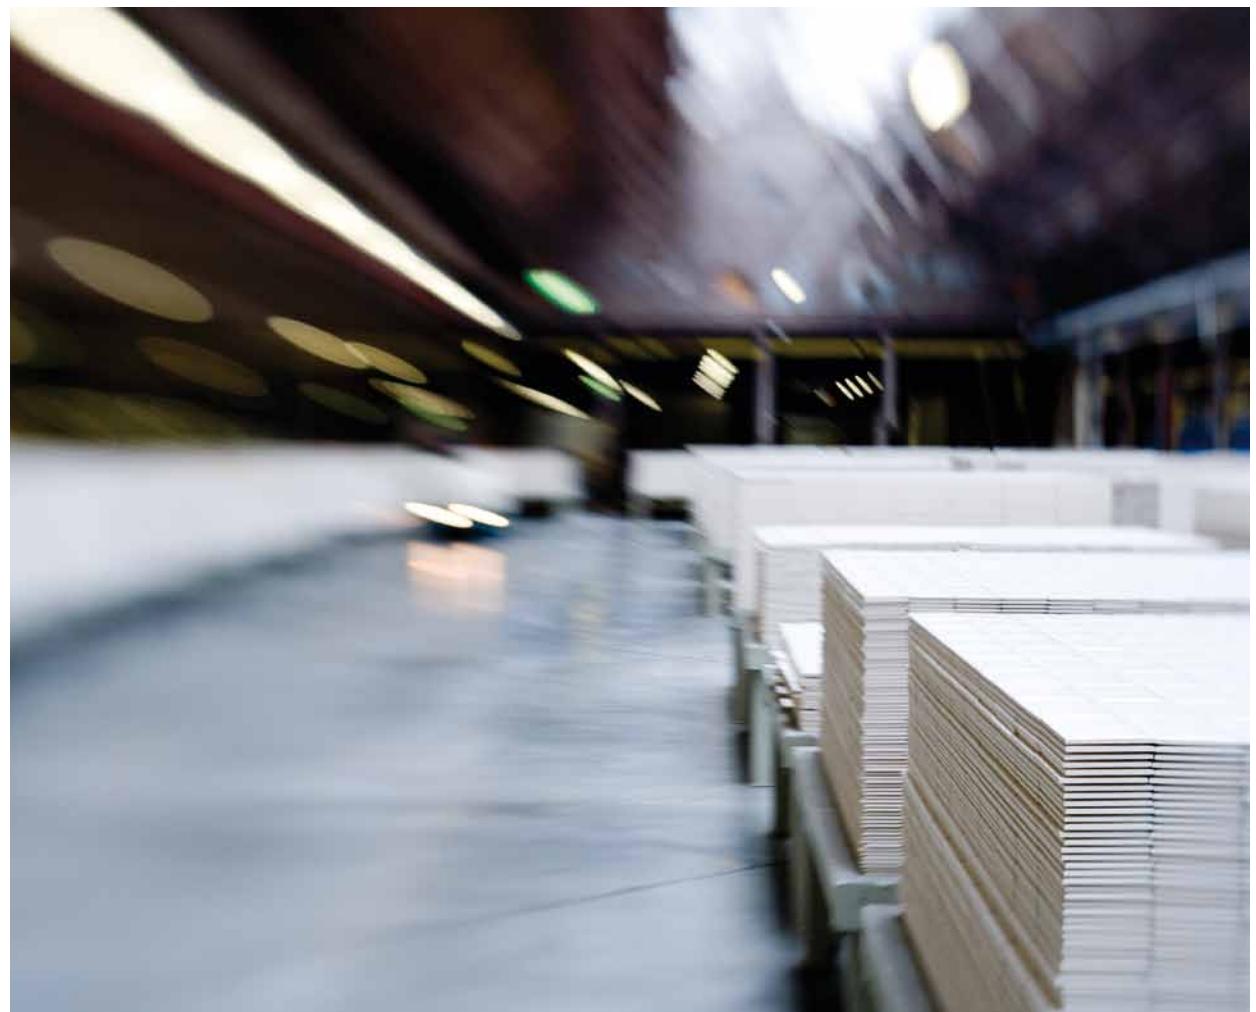

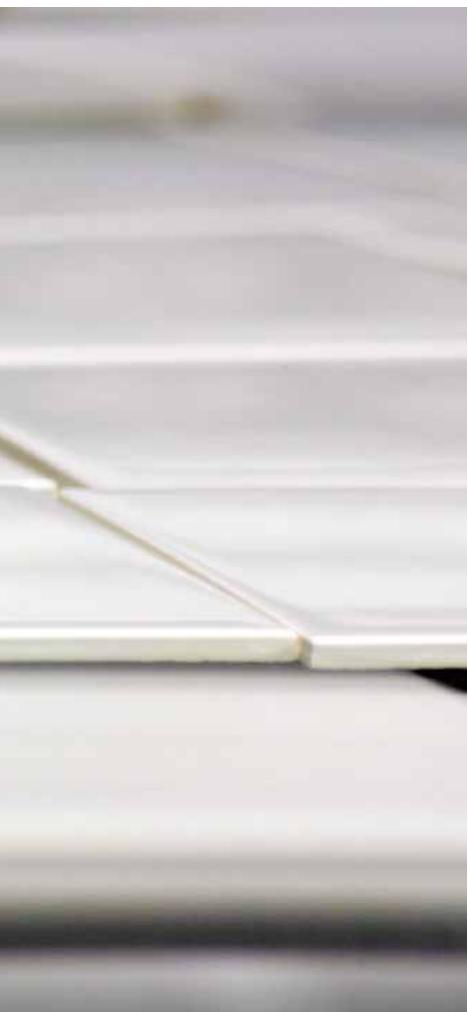

Mosa wall tiles are modular and are produced using a unique double-firing system. This gives Mosa wall tiles their highly consistent size and high quality glazed surface with a great gloss or matt finish. Mosa's flexible production process means the Mosa Design Team have a wide range of options, when it comes to developing new collections.

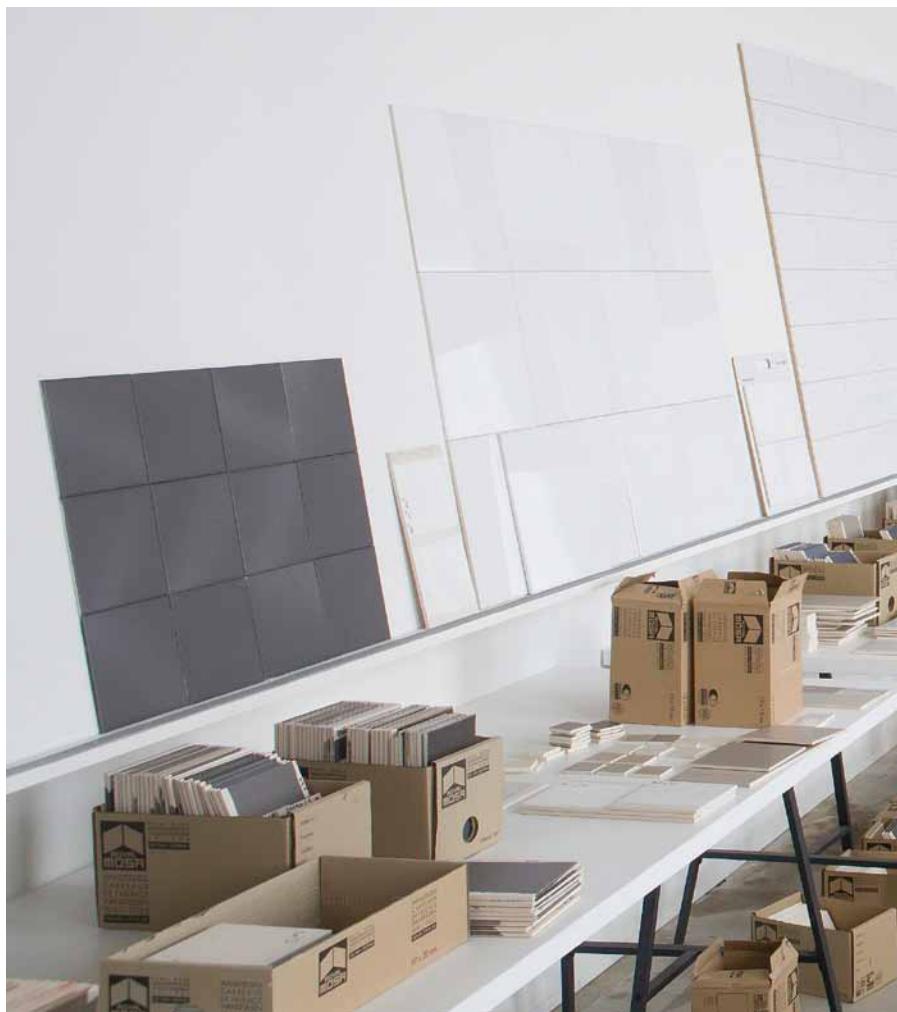

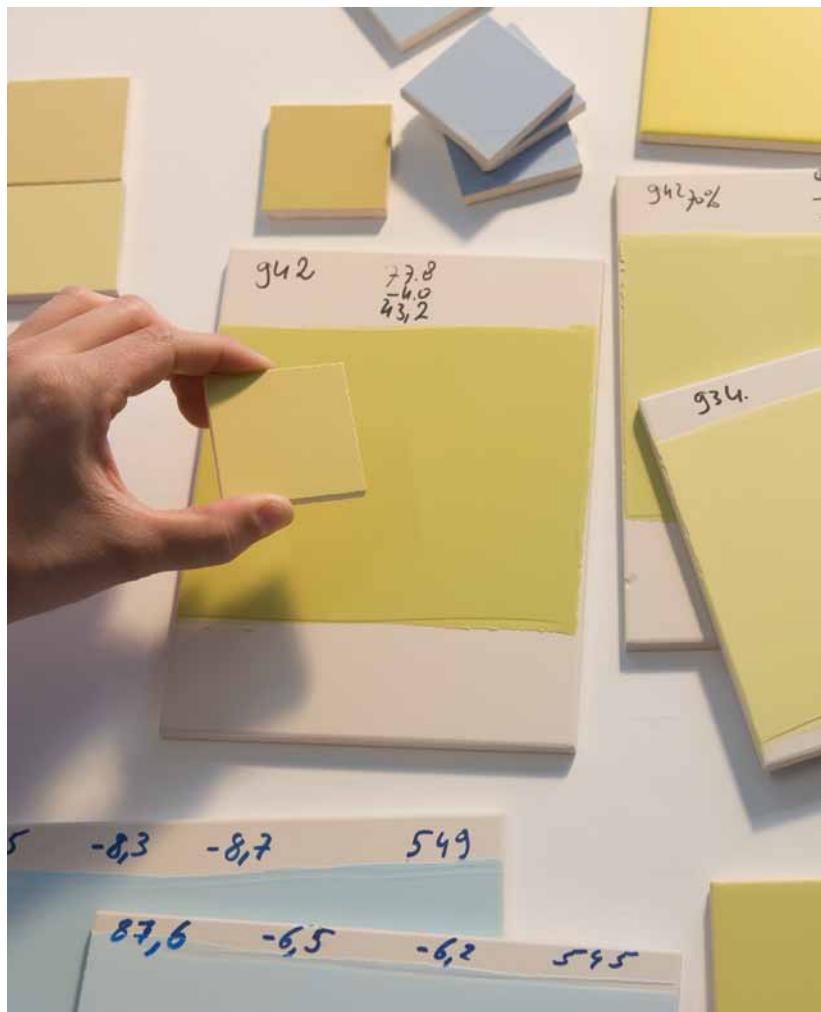

Mosa-Wandfliesen sind modular und werden in einem einzigartigen Zweibrandverfahren hergestellt. Aus diesem Grund sind Mosa-Wandfliesen sehr maßhaltig und bieten eine qualitativ hochwertige, glasierte, attraktiv glänzende oder matte Oberfläche. Dank der flexiblen Herstellungsprozesse kann das Mosa Design Team zahlreiche Möglichkeiten zur Entwicklung neuer Kollektionen anbieten.

Mosa wandtegels zijn modular en worden gemaakt met een uniek double-firing-systeem. Hierdoor zijn Mosa wandtegels zeer maatvast en hebben ze een kwalitatief hoogwaardig geëmailleerd oppervlak met een mooie diepe glans of matheid. Het flexibele proces biedt het Mosa Design Team veel mogelijkheden voor de ontwikkeling van nieuwe collecties.

Les carreaux muraux de Mosa sont modulaires et la fabrication se fait grâce à un système unique de bicusson qui leur assure une grande stabilité dimensionnelle. Leur surface émaillée de qualité supérieure est d'un beau brillant ou mat profond. La souplesse du processus permet au Mosa Design Team de développer de nouvelles collections.

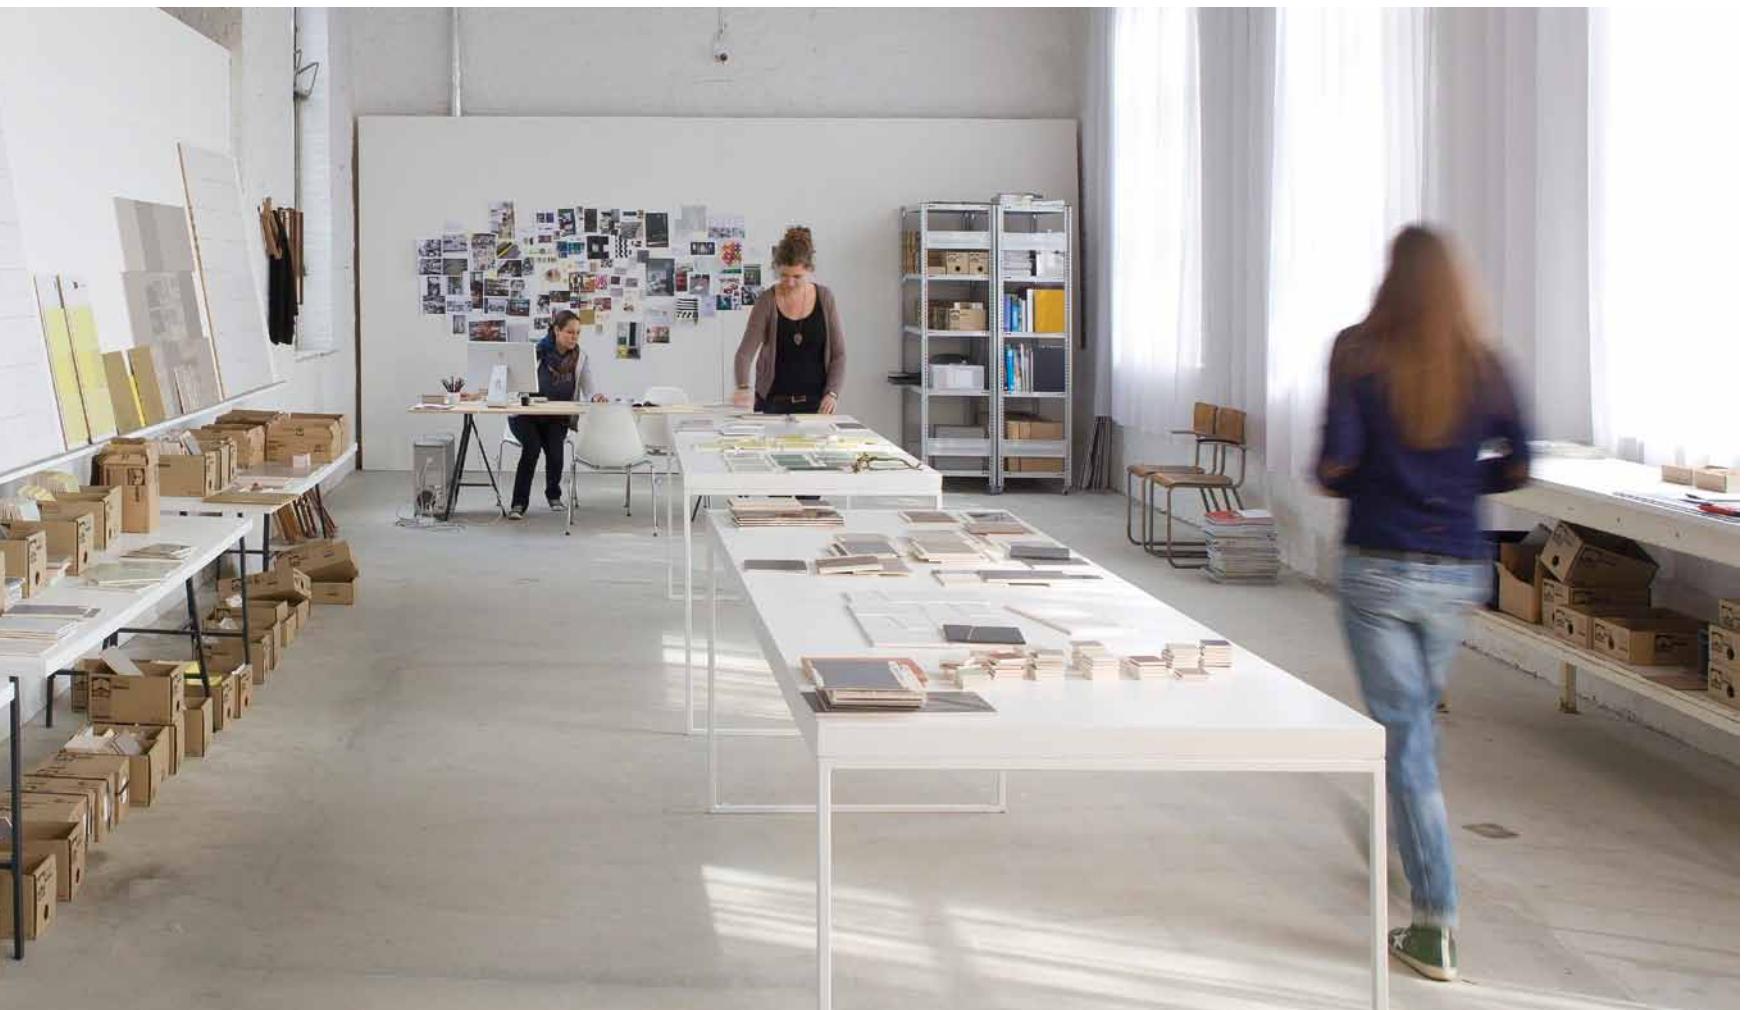

Expertise & technology

The Mosa team of designers and ceramics specialists are continuously developing new collections and innovations. They work on translating the tradition and feel of ceramics into modern, distinctive, and innovative designs as their guiding principle. Mosa's in-house, unique technologies and high grade production process provide the platform for the new solutions.

Die Designer und Keramiker des Mosa-Teams arbeiten ständig an der Entwicklung neuer Kollektionen und Innovationen. Ausgangspunkt ist, die Tradition und den spürbaren Charakter von Keramikprodukten in moderne, individuelle und erfrischende Designmuster zu übertragen. Eigene, einzigartige Technologien sowie ein hochwertiger Herstellungsprozess bilden die Grundlage.

Het Mosa team van ontwerpers en keramisten werkt voortdurend aan de ontwikkeling van nieuwe collecties en innovaties. De vertaling van de traditie en tactiliteit van keramiek naar hedendaagse, onderscheidende en vernieuwende ontwerpen is het uitgangspunt. Eigen unieke technologieën en een hoogwaardig productieproces vormen de basis.

L'équipe de créateurs et de céramistes de Mosa ne cesse d'innover et de développer de nouvelles collections. Le principe consiste à faire passer la tradition et la tactilité dans des projets contemporains et novateurs qui font la différence. A la base, on trouve des technologies uniques propres à l'entreprise et un processus de production de haute qualité.

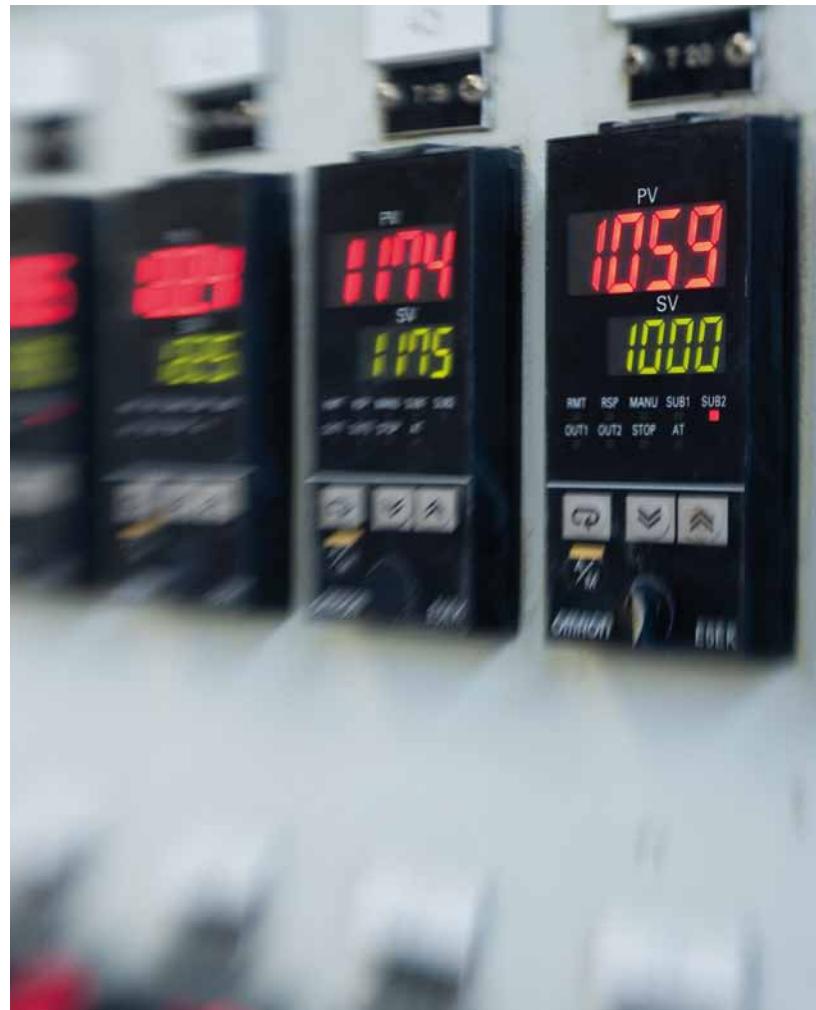

Cradle to Cradle® tiles

Sustainability is one of Mosa's core values and is at the very centre of new product development. Mosa's collections, including Mosa Murals, are Cradle to Cradle® Silver certified and meet current and future sustainable construction standards.

Duurzaamheid is één van de kernwaarden van Mosa en staat centraal bij de ontwikkeling van nieuwe producten. Mosa collecties, inclusief Mosa Murals, zijn Cradle to Cradle® Silver gecertificeerd en voldoen aan de hedendaagse en toekomstige standaard voor duurzaam bouwen.

Le développement durable, une des valeurs clés de Mosa, occupe une place primordiale dans l'élaboration de nouveaux produits. Les collections de Mosa, y compris Mosa Murals, sont certifiées Cradle to Cradle® Silver et elles répondent aux normes actuelles et futures de la construction durable.

Einer der Kernwerte der Firma Mosa ist die Nachhaltigkeit, die bei der Entwicklung neuer Produkte im Vordergrund steht. Die Kollektionen, auch Mosa Murals, sind gemäß Cradle to Cradle® Silver zertifiziert und entsprechen den derzeitigen Normen für nachhaltiges Bauen.

Change

Introduction

Mosa Murals is a unique and innovative concept for ceramic walls. The essence is not only found in applying tiles to a wall, but also in creating an authentic ceramic wall: a mural. Each mural has an individual character and signature, and is designed by balancing size, tone, colour and surfaces in a preselected or custom-designed grid. The resulting pattern is a ceramic wall, layered across multiple dimensions. Discover the endless design possibilities and be inspired.

The Mosa Murals collection consists of three series: Blend, Lines and Change. Each series has its own character taken from the same colour palette.

Mosa Murals ist ein einzigartiges und erfrischendes Konzept für keramische Flächen. Entscheidend ist, nicht nur Fliesen an einer Wand anzubringen, sondern eine keramische Fläche mit einem authentischen Charakter zu schaffen: ein Mural. Jedes Mural hat einen eigenen Charakter und eine eigene Note und besteht aus einer ausgewogenen Kombination verschiedener Formate, Farbtöne, Farben und Oberflächen, in einem ausgewählten oder selbst entworfenen Raster. Durch dieses Muster entsteht eine keramische Fläche, deren Vielschichtigkeit sich über mehrere Dimensionen erstreckt. Zahllose Designmöglichkeiten und Inspirationen stehen zur Verfügung.

Die Kollektion Mosa Murals besteht aus den drei Reihen Blend, Lines und Change. Jede Reihe verfügt über einen eigenen Charakter auf der Grundlage derselben Farbpalette.

Mosa Murals is een uniek en vernieuwend concept voor keramische wanden. De essentie is niet enkel de toepassing van tegels in een wand, maar het creëren van een keramische wand met authenticiteit: een mural. Elke mural heeft een individueel karakter en signatuur en wordt gevormd door een afgewogen combinatie van formaten, kleurtonen, kleuren en oppervlakken in een gekozen of zelf ontworpen grid. Het patroon resulteert in een keramische wand met gelaagdheid in meervoudige dimensies. Ontdek zelf de eindeloze ontwerpmogelijkheden en raak geïnspireerd.

De Mosa Murals collectie is opgebouwd uit drie series: Blend, Lines en Change. Elk met een eigen karakter op basis van hetzelfde kleurenpalet.

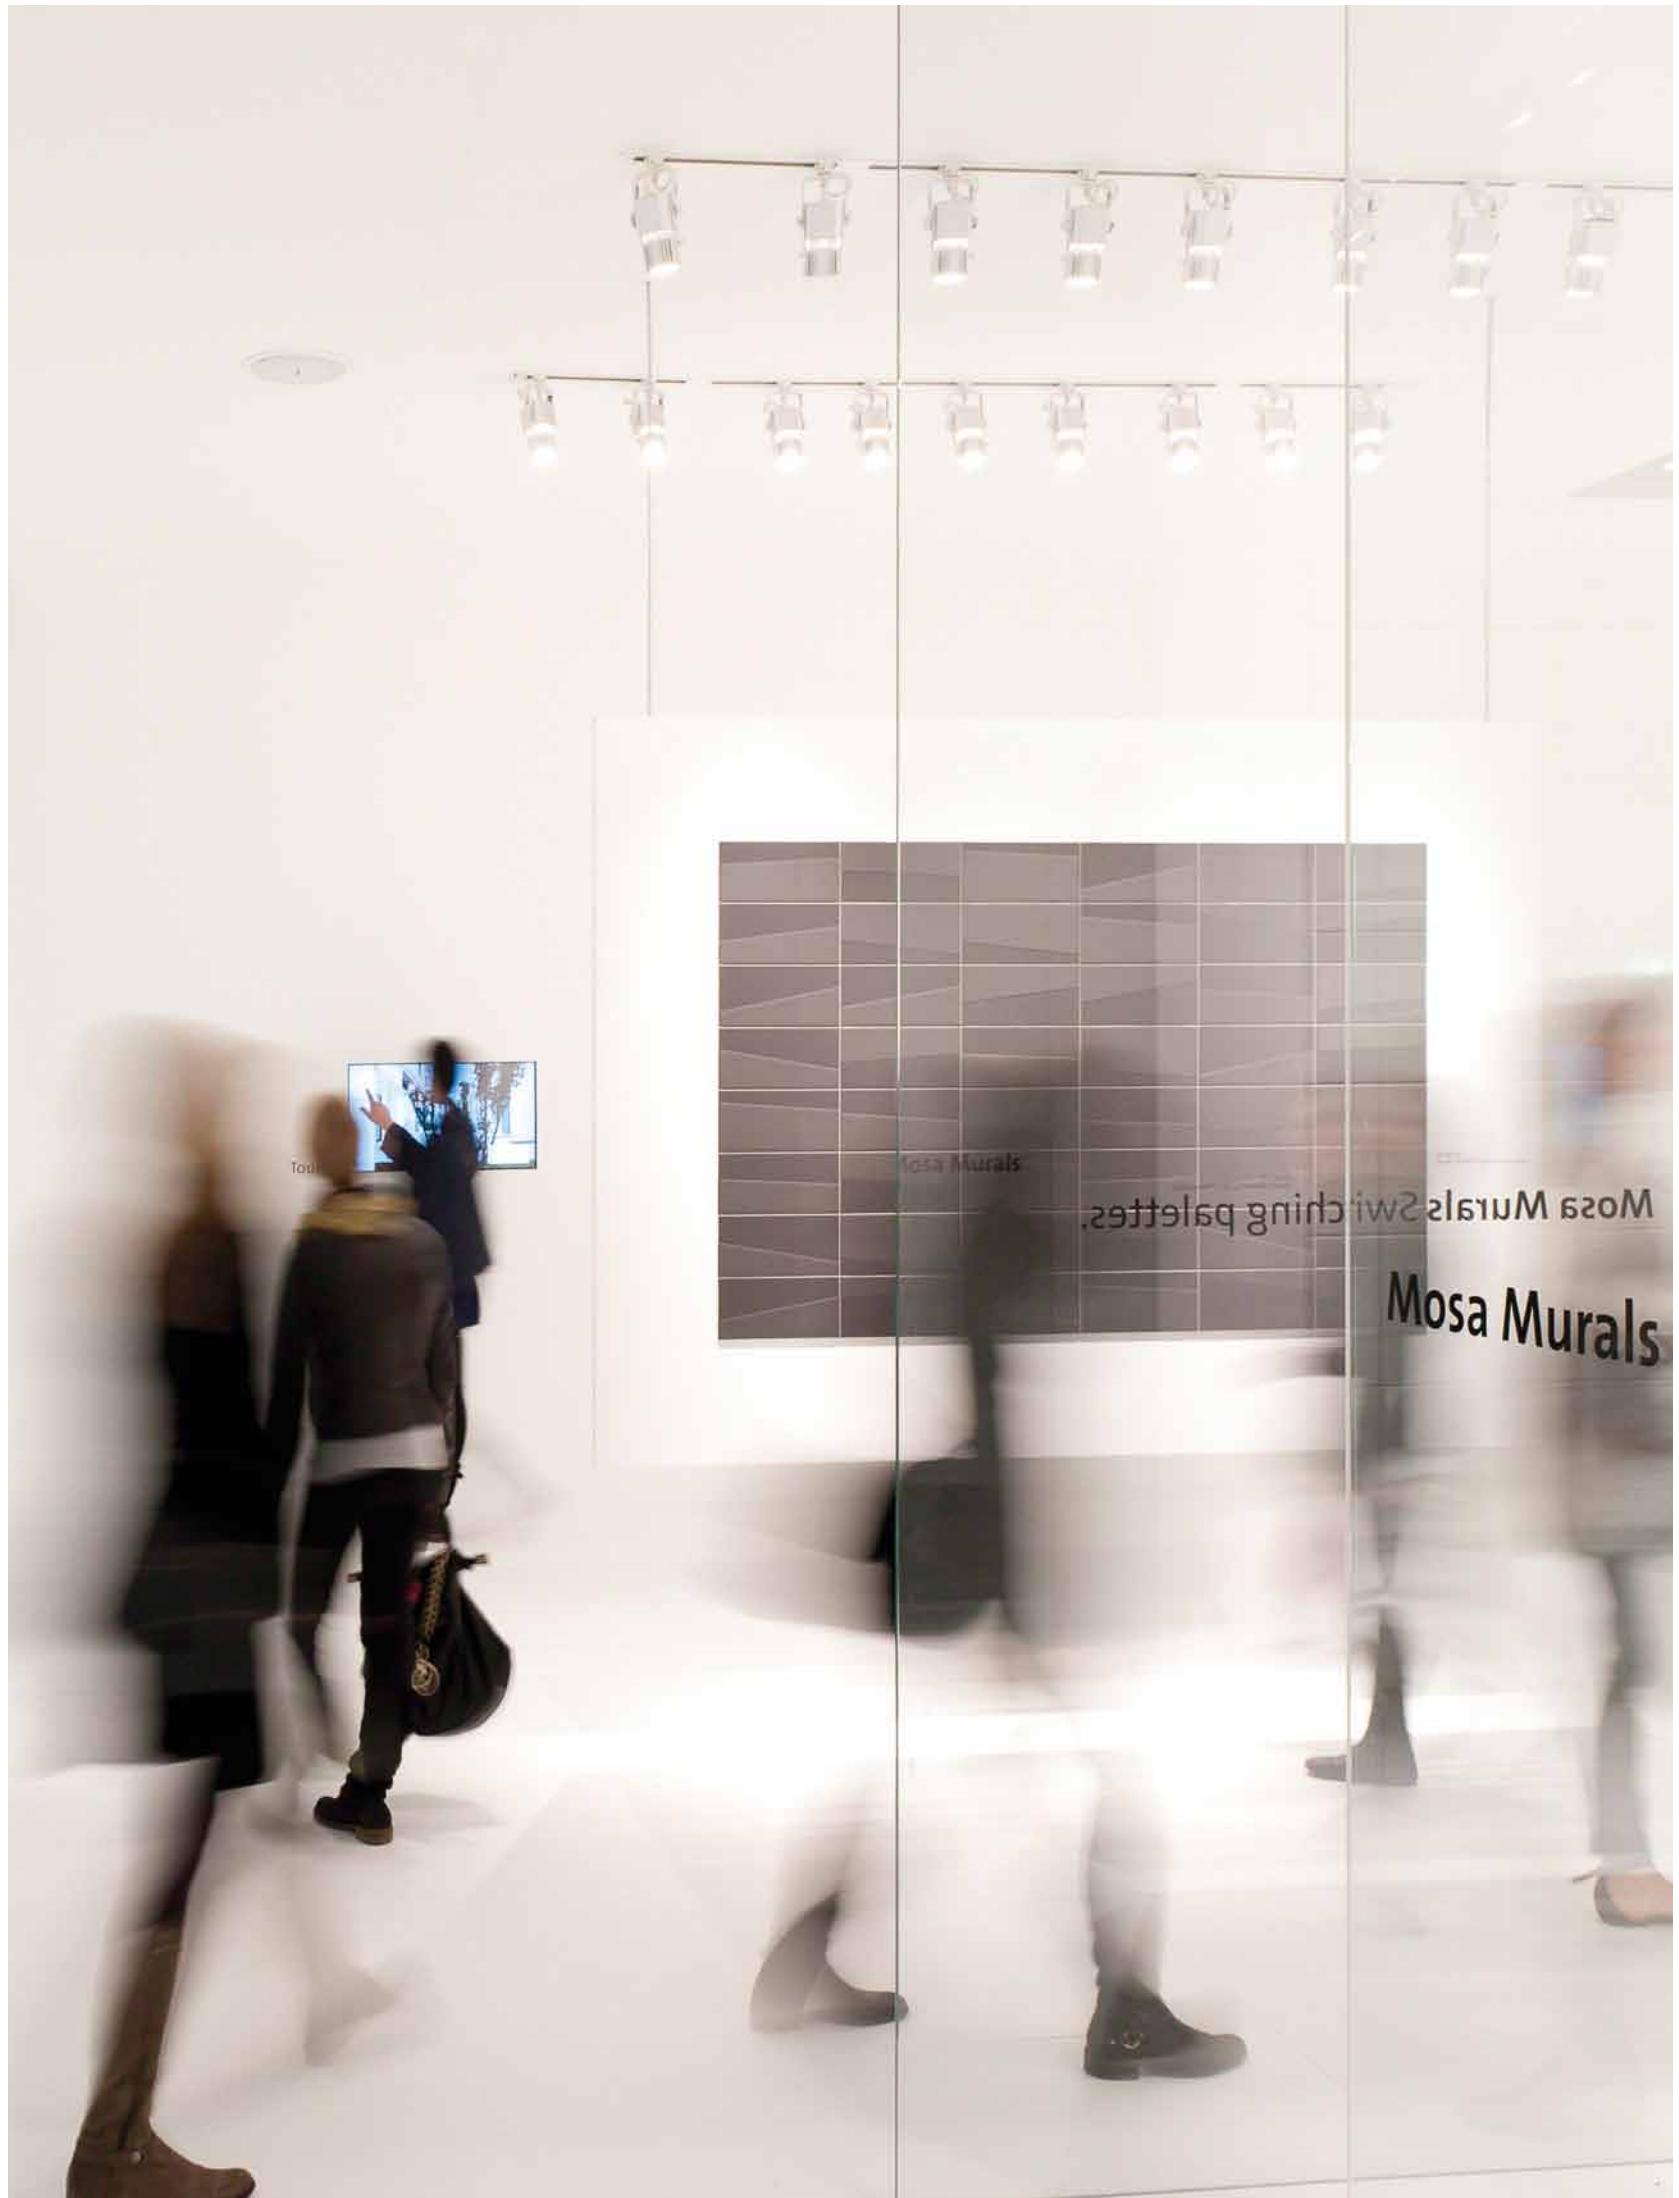

Mosa Murals est un concept innovant unique pour les murs en carreaux de céramique. L'important n'est pas seulement de poser des carreaux sur un mur, mais également de créer un mur en céramique doté d'authenticité. Chaque mural se reconnaît à son caractère et son originalité, il résulte d'une combinaison harmonieuse entre les différentes dimensions, couleurs, nuances et surfaces, le tout disposé dans une trame choisie, voire conçue spécialement. A partir du gabarit sera réalisé un mur en céramique caractérisé par sa stratification en multiples dimensions. Découvrez les infinies possibilités de création que ces murals inspirent.

La collection Mosa Murals comprend trois séries : Blend, Lines et Change. Chacune avec ses caractéristiques propres, basées sur la même palette de couleurs.

winner 2013

Mosa Murals Blend

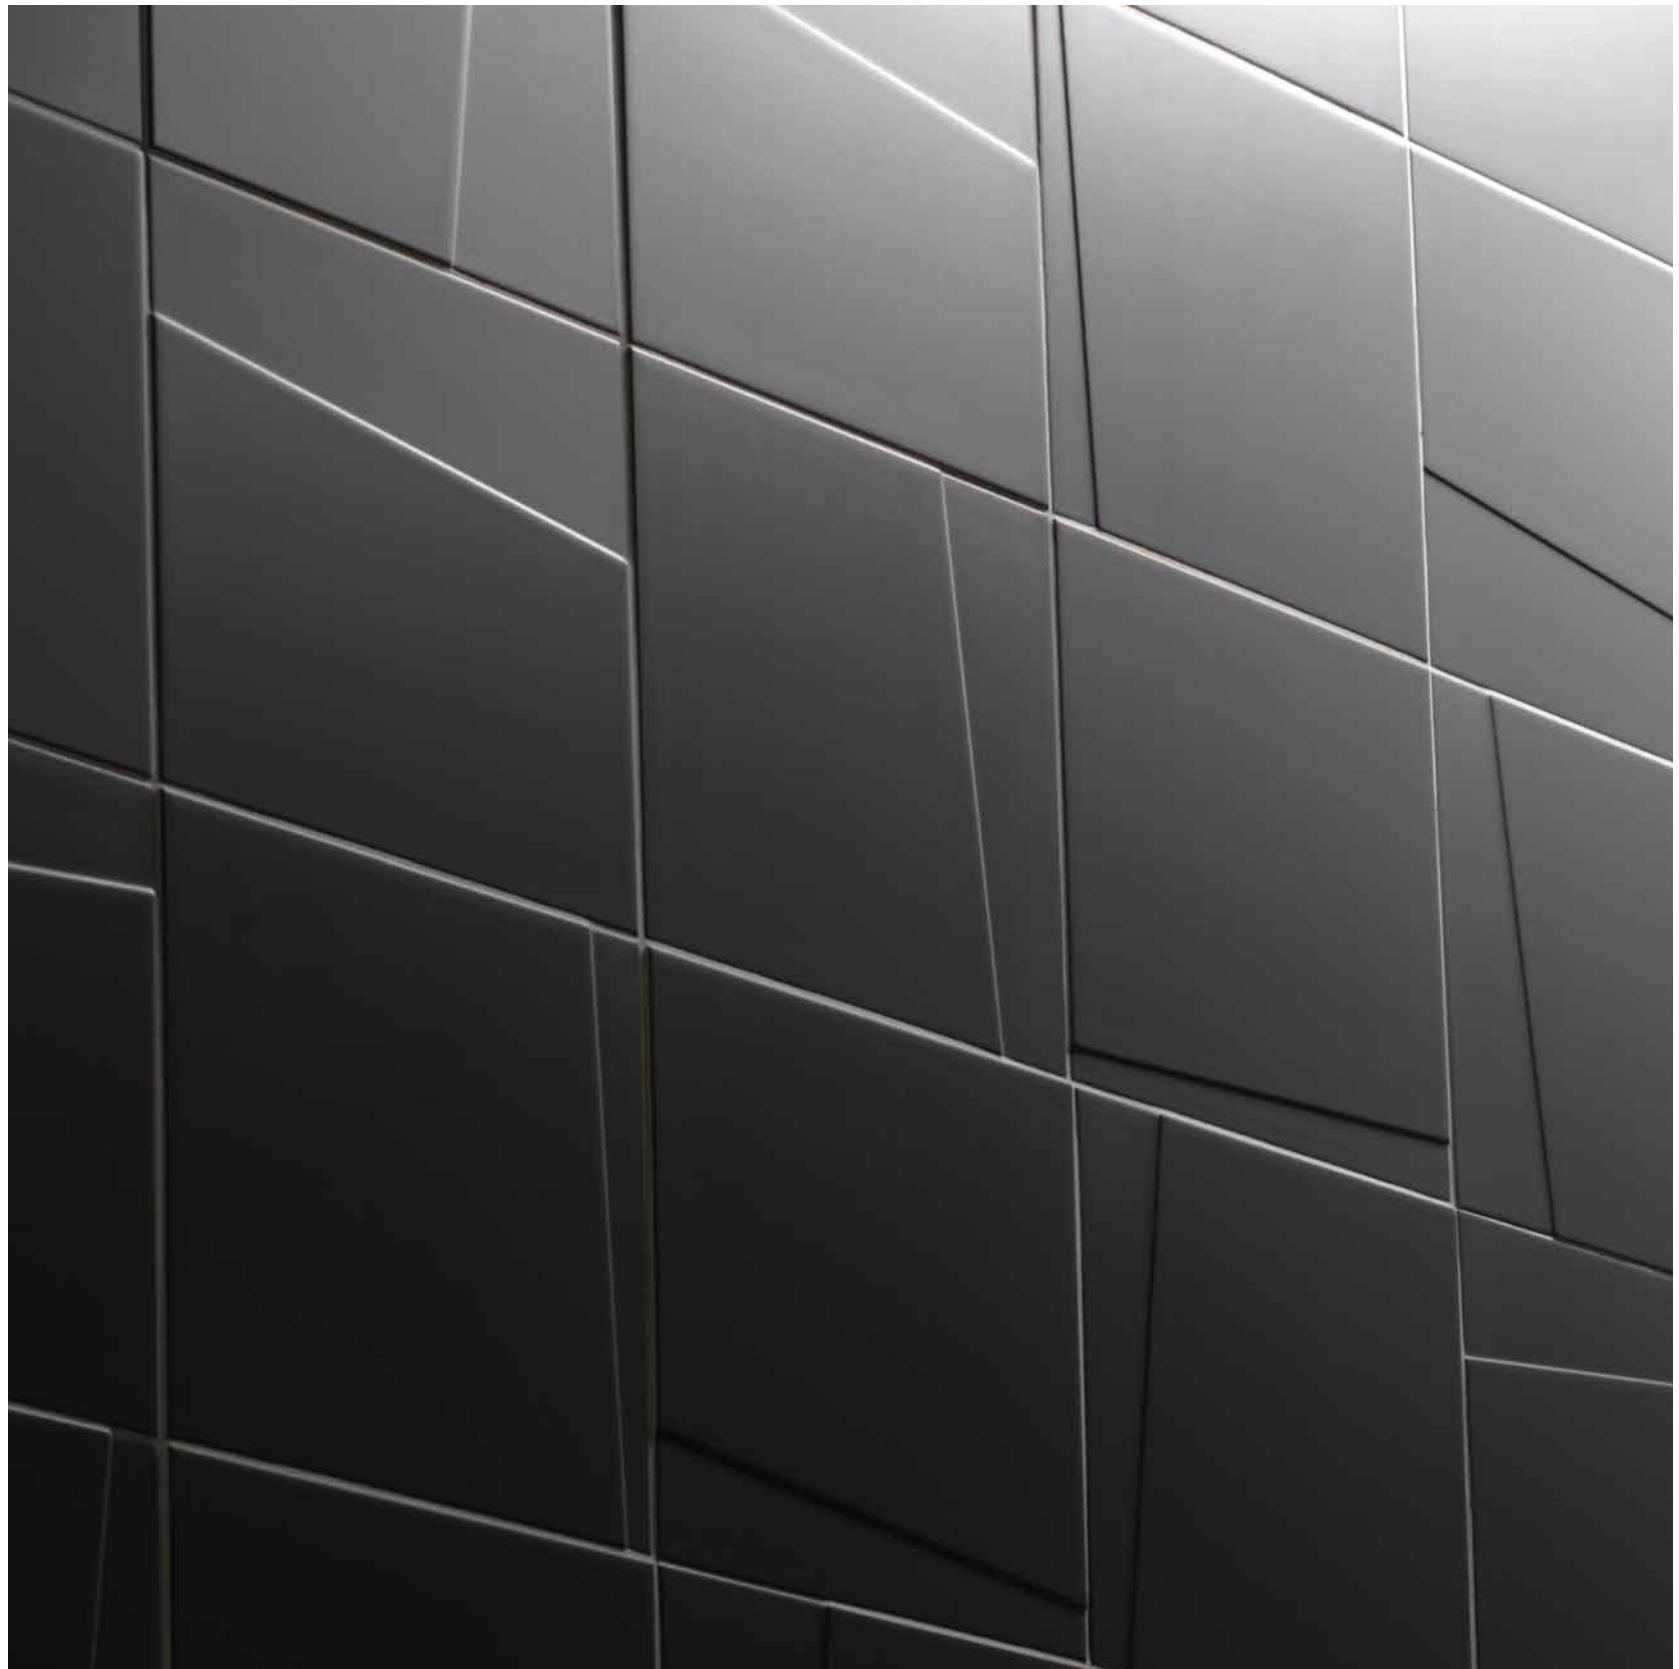

A meeting of colour tones, gradations of gloss and sizes in one ceramic wall. Blend tiles are developed and designed to be mutually combined to create a harmonious and vivid surface. This surface might be subdued or expressive, depending on the choice of grids and colour combinations. The palette of subtle colour tones, sizes and gloss gradations are brought together as mutually linked colour families. The large selection of elements invites and challenges the designer with a limitless range of design options and individual signatures.

Een ontmoeting van kleurtonen, glansgradaties en formaten in een keramische wand. De tegels van Blend zijn ontworpen en ontwikkeld om onderling te worden gemengd tot een harmonieuze en levendige vlak. Dit kan ingetogen zijn of meer expressief af naar gelang keuze van grid en kleurcombinaties. Het palet subtile kleurtonen, formaten en glansgradaties is samengebracht in kleurfamilies die onderling verbonden zijn. Als elementen die de ontwerper uitnodigen en uitdagen. Met oneindige designmogelijkheden en individuele signatuur.

La rencontre de nuances, de dégradés de brillant et de formats différents dans un mur de céramique. Les carreaux Blend sont créés et produits pour être associés entre eux et donner une impression de mouvement harmonieux. De manière discrète ou plus expressive selon le choix de trame et de mélanges de couleurs. La palette de nuances subtiles, de formats et de dégradés de brillant regroupée selon les familles de couleurs associées entre elles invite les créateurs à exceller dans leurs projets. Les possibilités de création tout à fait personnelles sont infinies.

Farbtöne, Glanzstufen und Formate treffen in einer Wand aufeinander. Die Blend-Fiesen wurden entworfen und entwickelt, um miteinander zu einer harmonischen und lebendigen Oberfläche kombiniert zu werden. Diese Oberfläche kann je nach Raster und Farbkombinationen dezent oder expressiv gestaltet werden. Die Palette der subtilen Farbtöne, Formate und Glanzstufen wird zu Farbfamilien kombiniert, die miteinander in Verbindung stehen. Und zwar in Form von Elementen, die den Designer mit zahllosen Designoptionen und einer individuellen Signatur einladen und herausfordern.

Mosa Murals Lines

Lines tiles embody elegance and subtle variation in clearly defined surfaces with profundity and refinement. Lines tiles use a play of light, shadow and movement to seduce. Create reliefs that create depth through asymmetric surfaces. The tiles cast intrigue using their clean, slanting lines. Interesting geometric structures harmonise with the grid to create a monochrome, yet vivid, ceramic surface.

Eine elegante und subtile Variation mit genau abgegrenzten, raffiniert abgestuften Flächen. Lines-Fliesen verführen durch ihr Spiel von Licht, Schatten und Bewegung. Mit Reliefstrukturen, die für Abstufungen in den asymmetrischen Flächen sorgen. Die Fliesen bestechen durch glatt abfallende Flächen. Auffällige geometrische Strukturen harmonieren mit dem Raster und bilden eine monochrome, aber lebendige keramische Oberfläche.

Elegantie en subtile variatie in scherpe omliggende vlakken met verdieping en verfijning. Lines tegels verleiden door een spel van licht, schaduw en beweging. Met reliëfstructuren die zorgen voor een verdieping van de asymmetrische vlakken. De tegels intrigeren door strak hellende lijnen. Bijzondere geometrische structuren harmoniëren met het grid tot een monochroom maar levendig keramisch oppervlak.

Elégance et variations subtiles de surfaces aux contours parfaits, marquées par leur profondeur et finesse. Les carreaux Lines séduisent par le jeu de lumière, d'ombre et de mouvement. Les structures en relief donnent de la profondeur aux surfaces asymétriques. Ces carreaux intriguent par leurs lignes à forte déclivité. Les structures géométriques originales s'associent harmonieusement à la trame pour former une surface en céramique monochrome dynamique.

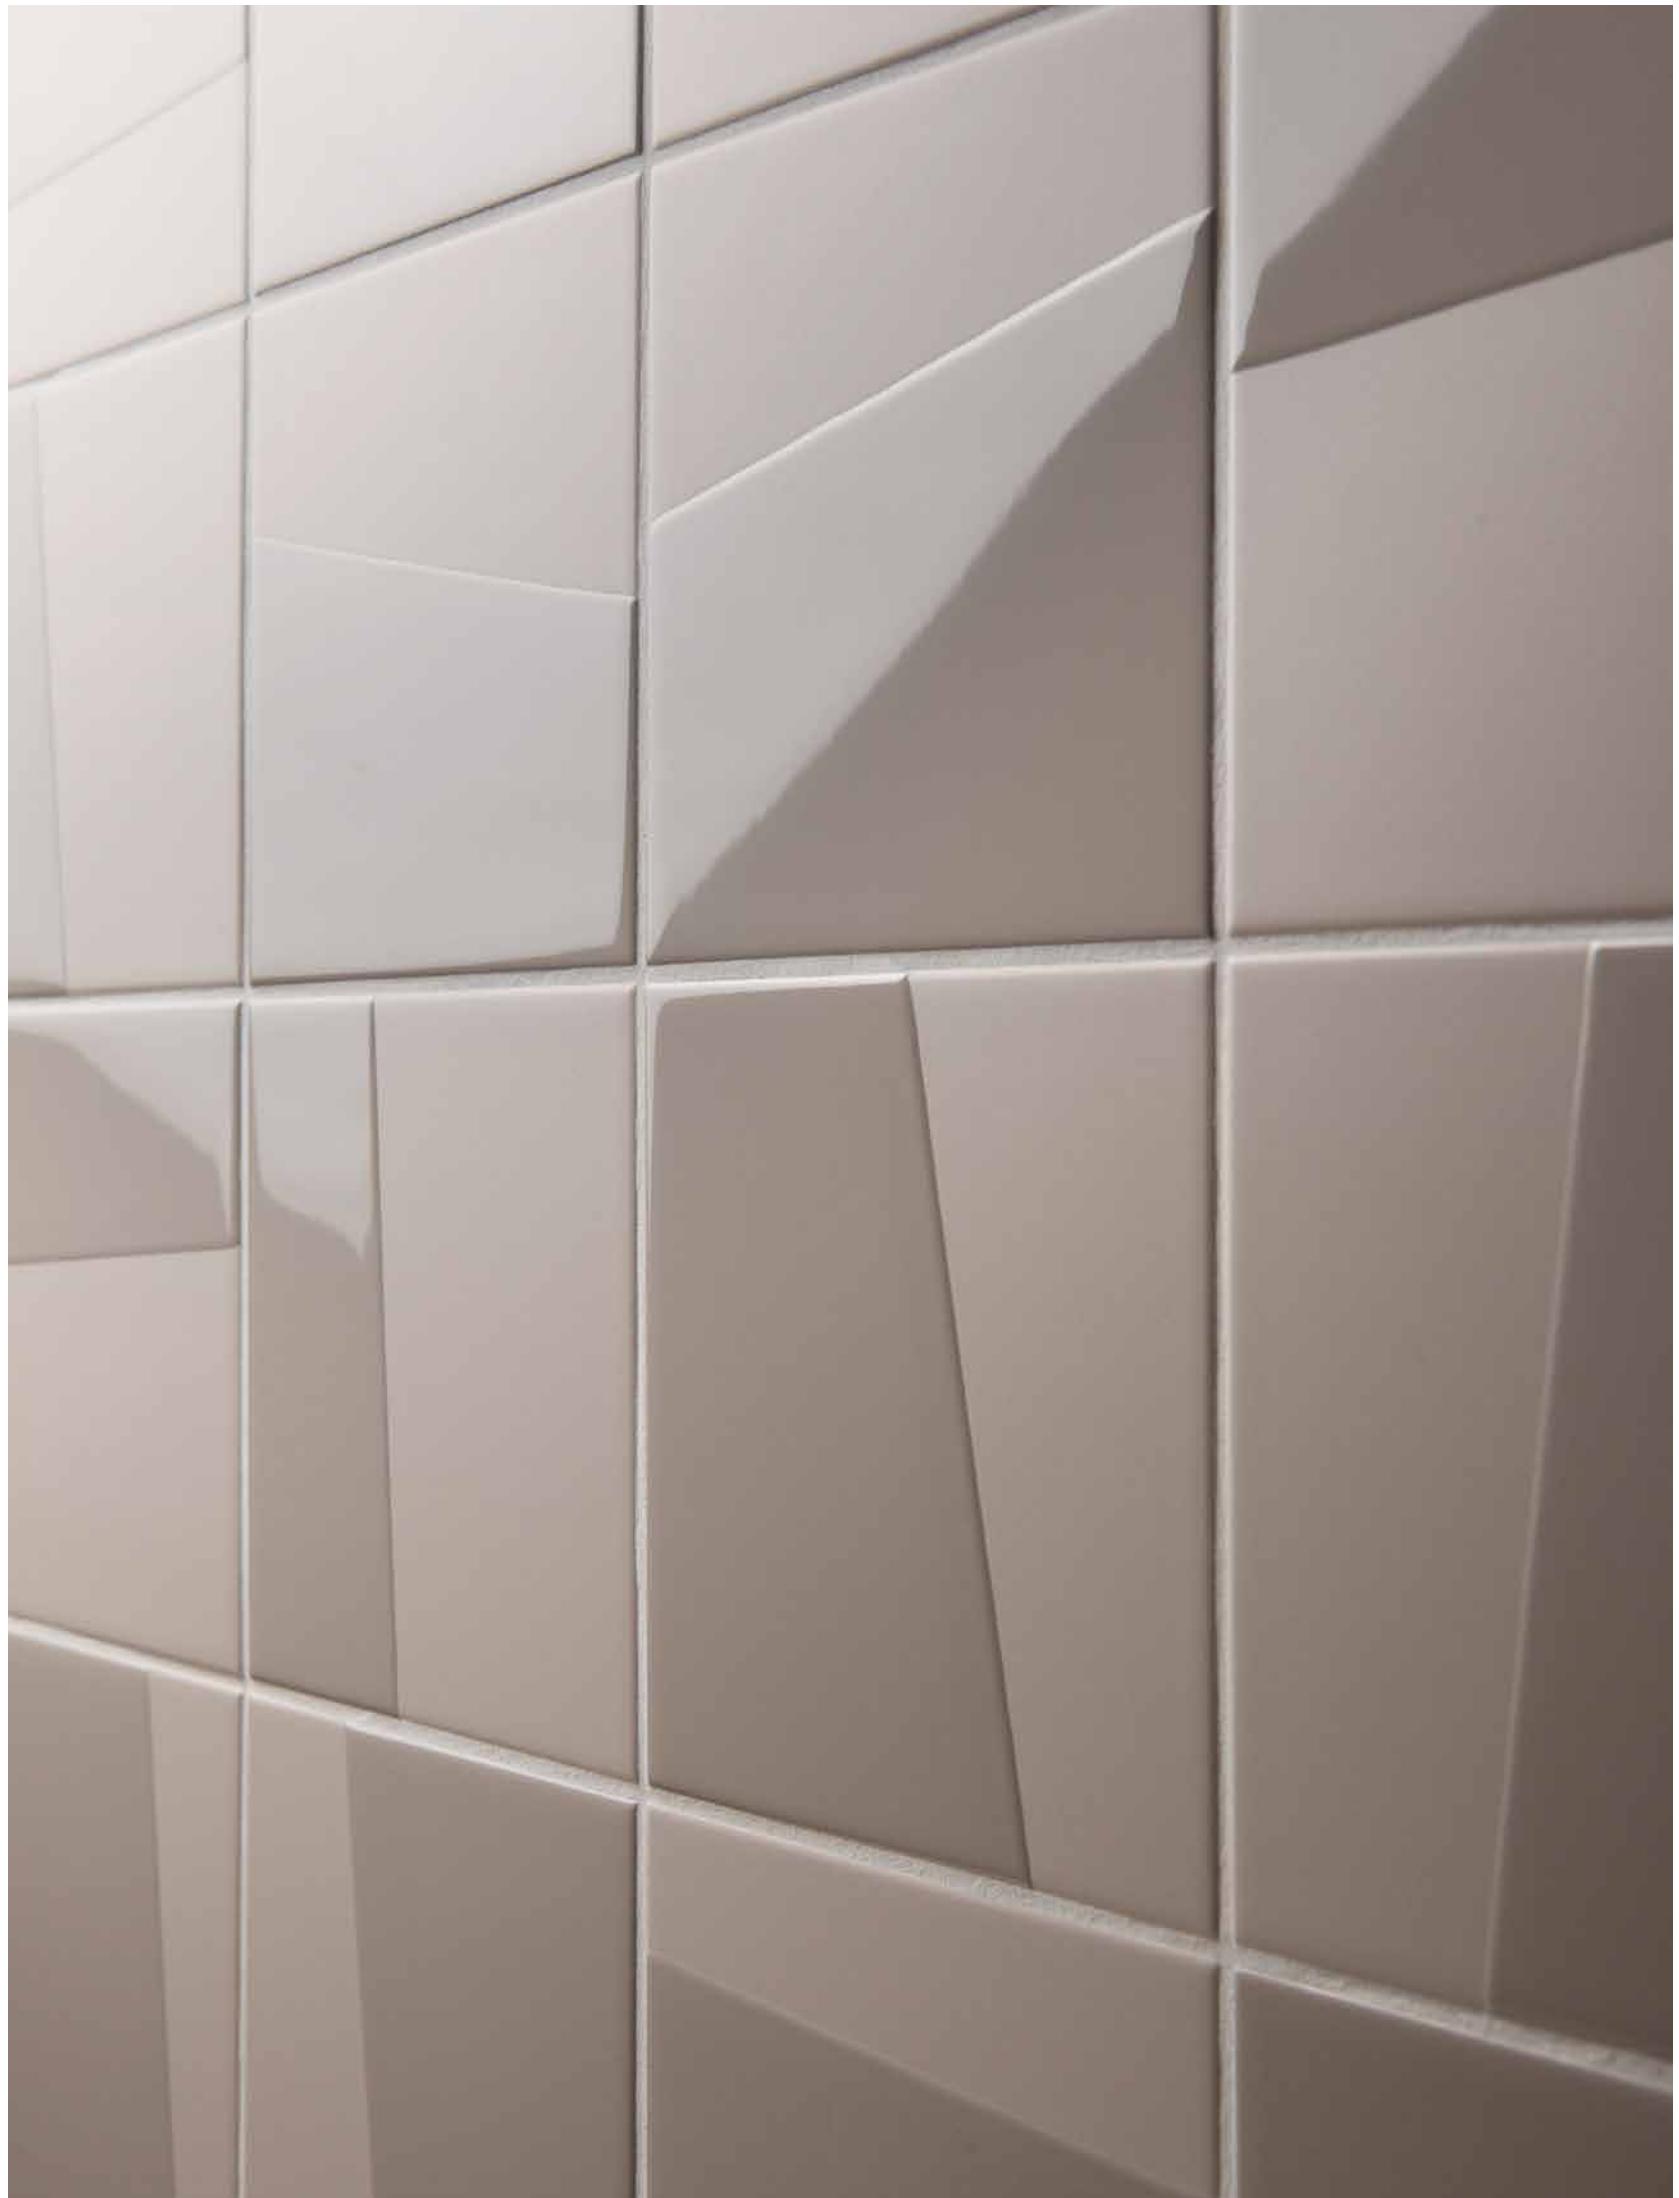

Mosa Murals Change

Change* tiles represent ceramic expression in its purest form. A thick layer of glaze virtually drips from each tile. This emphasises the tile wall's ceramic nature and creates a special appearance. Subtle lines and a randomly applied layer of glaze creates an extraordinary wall surface. By taking a simple uniformly sized pattern, and utilising the subtle lines and a randomly applied layer of glaze, you will be able to create an extraordinary wall surface. Change tiles in stonematt-gloss make a wall more striking, Change tiles in a matt-matt effect strengthens the colour effect.

Change* steht für keramische Ausdrucks-fähigkeit in reinster Form. Eine breite Glasurfuge tropft quasi von der Fliese nach unten, hebt den keramischen Charakter der Fliesenwand hervor und erschafft ein besonderes Erscheinungsbild. Durch subtile Linienführung und die willkürlich angebrachte Glasurfuge entsteht eine besondere Wandoberfläche mit individuellem Charakter. Dazu tragen auch die einfachen Muster mit einem einzigen Format bei. Steinmatt-glänzende Change-Fliesen lassen eine Wand prouncierter erscheinen, matt-matt verstärkt den Farbeffekt.

Change* staat voor keramische expressie in een pure vorm. Een dikke glazuurveeg druift als het ware van de tegel af. Deze benadrukt het keramisch karakter van de tegelwand en creëert een bijzonder verschijningsbeeld. Door subtele belijning samen met een willekeurig aangebrachte glazuurveeg ontstaat een bijzonder wandoppervlak met individualiteit. Dit wordt al bereikt met eenvoudige patronen in één formaat. Change in steenmat-glans maakt de wand sprekender, Change in mat-mat versterkt het kleureffect.

Change*, c'est la céramique dans son expression la plus pure. Un épais balayage de l'émail semble s'écouler du carreau, accentuant l'aspect céramique de l'image reflétée par le mur carrelé. Des contours subtils et un balayage aléatoire de l'émail créent une surface originale marquée d'individualité. Cet effet s'obtient déjà avec des modèles simples dans un seul format. Change en mat pierre-brillant accentue le côté expressif du mur, Change en mat-mat renforce l'effet couleur.

Tones and colours

Each colour tone and colour was selected very carefully for each collection. The tones and colours in the Blend series have been grouped into colour families that allow for both subtle and more expressive combinations. For the Lines and Change series, the tones and colours were integrated into the tile design. All the tones and colours in the Blend, Lines, and Change series are based on the same palette. Mosa's unique production and control process guarantees the consistency of the subtly balanced colour tones, meaning each series can be combined with the others.

Die Farbtöne und Farben der Kollektionen ergeben ein ausgewogenes Gesamtbild. Die Blend-Reihe umfasst aufeinander abgestimmte Farbfamilien, die dazu einladen, Wände in dezenten oder ausdrucksstarken Kombinationen zu gestalten. Bei Lines und Change sind die Farben in das Design der Fliesen integriert. Alle Farbtöne und Farben der Kollektionen Blend, Lines und Change beruhen auf derselben Farbpalette. Die farbliche Kontinuität der sorgfältig aufeinander abgestimmten Farbtöne wird durch besondere Herstellungs- und Kontrollverfahren gewährleistet. Daher ist es möglich, die Kollektionen miteinander zu kombinieren.

Kleurtonen en kleuren zijn afgewogen bepaald bij de collecties. Zo zijn ze bij Blend op elkaar afgestemd in kleurfamilies, die uitnodigen tot ingetogen of meer expressieve combinaties in een wand. Bij Lines en Change zijn ze geïntegreerd in het tegelontwerp. Alle kleurtonen en kleuren van Blend, Lines en Change zijn gebaseerd op hetzelfde kleurenpalet. De tintbeheersing van de subtel op elkaar afgestemde kleurtonen wordt door het unieke productie- en controleproces gewaarborgd. Collecties zijn hierdoor onderling combineerbaar.

Les collections sont dotées de nuances et de couleurs harmonieusement sélectionnés. Dans la série Blend, les couleurs s'accordent pour créer sur un mur des combinaisons discrètes ou plus expressives. Dans les séries Lines et Change, elles sont intégrées dans le carreau lui-même. Tous les couleurs et nuances de Blend, Lines et Change ont pour base la même palette de couleurs. Le processus unique de production et de contrôle garantit la maîtrise des nuances des couleurs en parfaite harmonie. Les collections peuvent ainsi très bien se combiner entre elles.

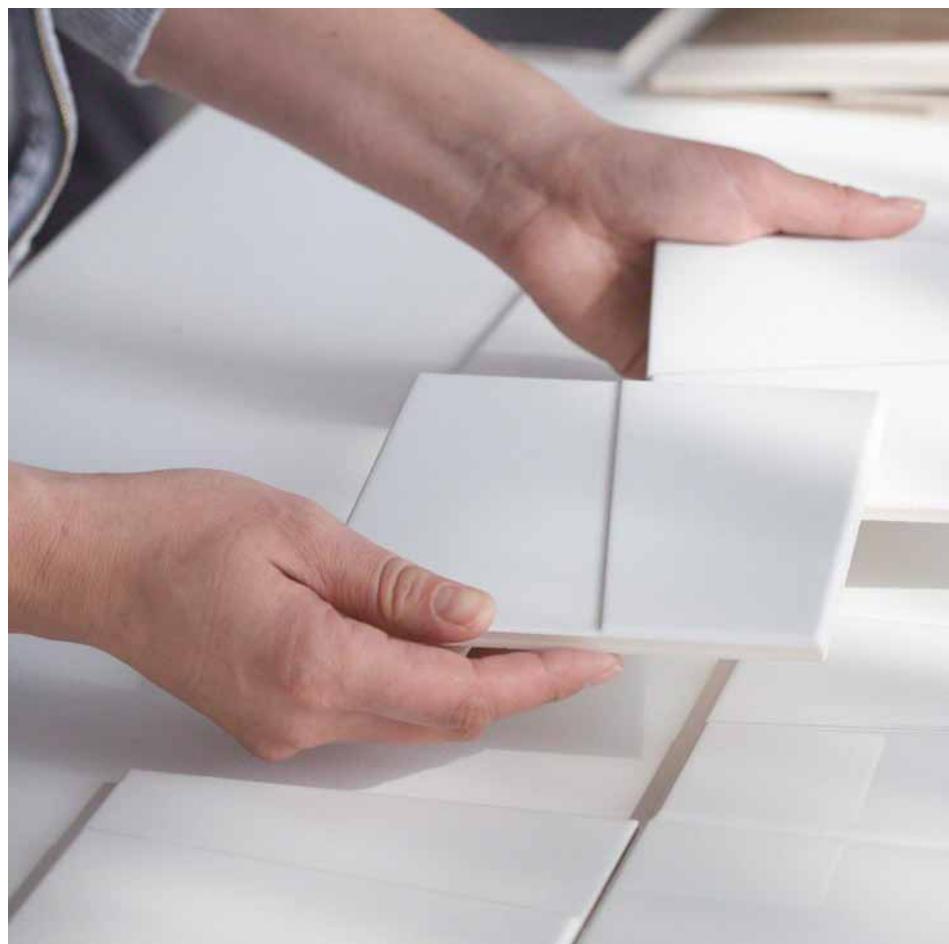

Finishing and surfaces

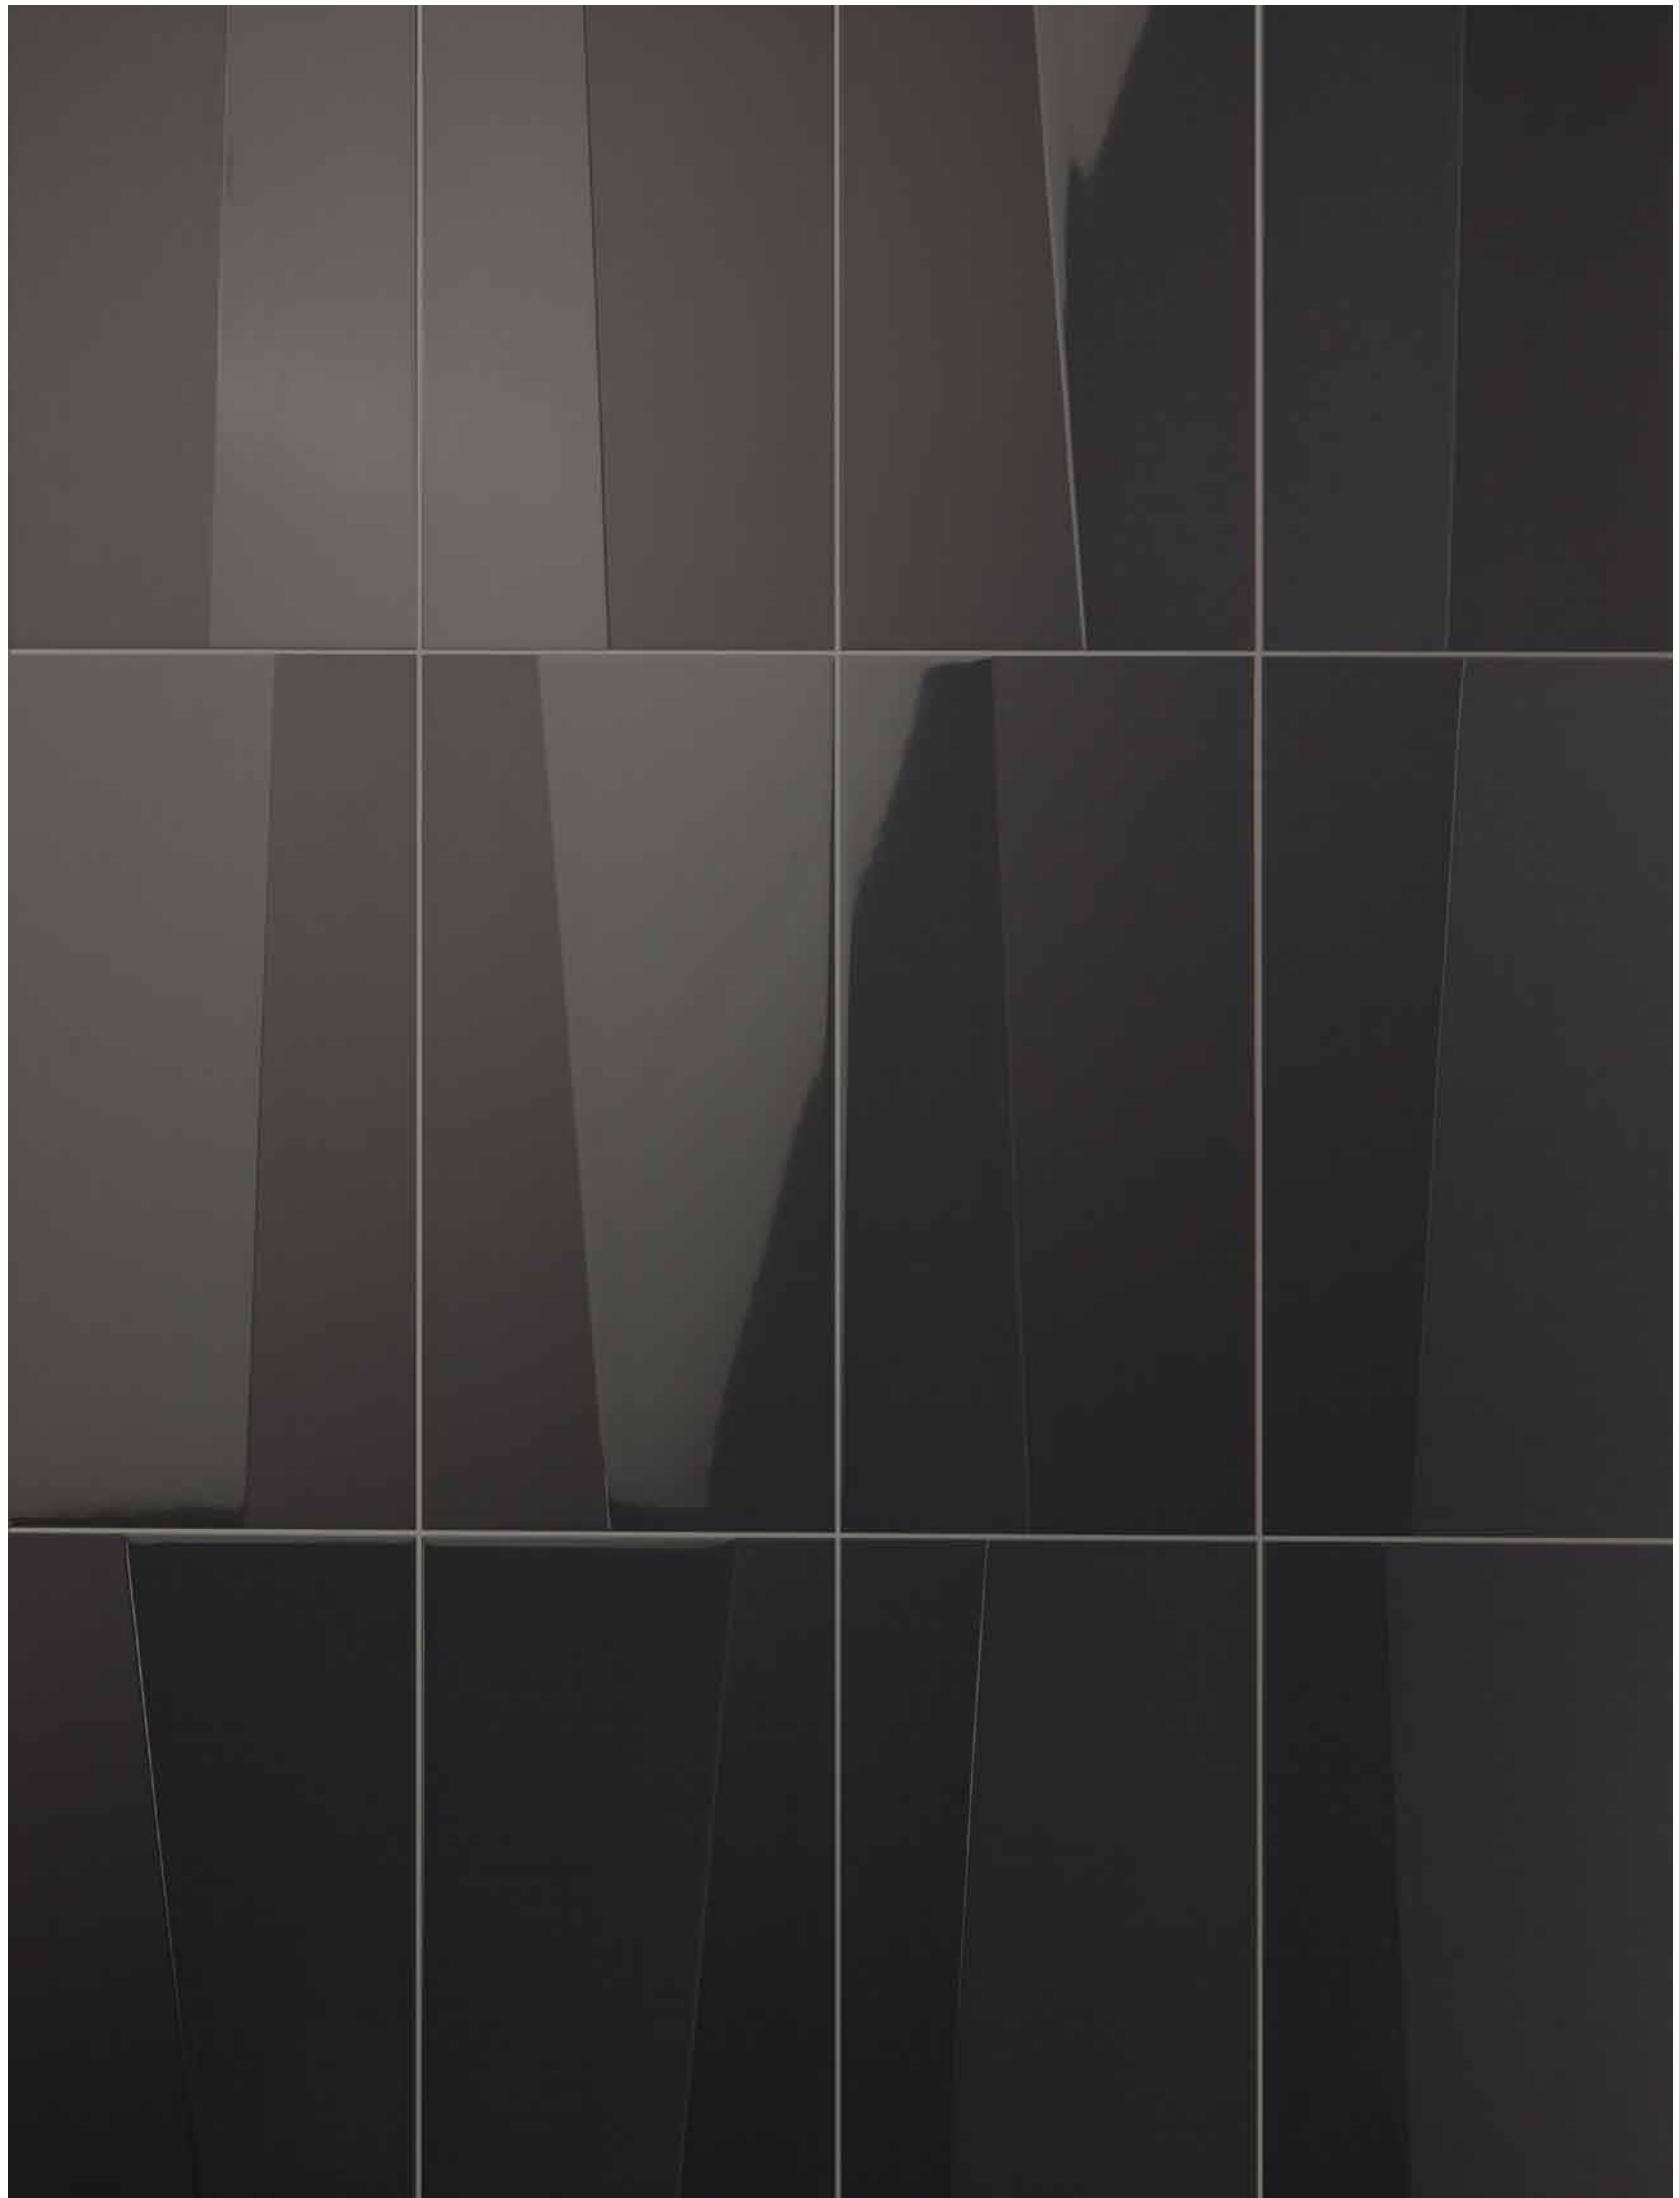

The collections are characterised by a play of texture and structure that creates subtle nuances and explicit effects in the wall. For example by combining such things as stonematt and glossy tiles, or through creating a relief. Mosa has developed a new stonematt glaze, high tactility tile for the Blend, Lines, and Change series. The Lines series tactile glaze has been combined with a recessed surface to create a unique play of light and shadow. The Change series has a matt-gloss and matt-matt combination integrated into the glaze layer.

In den Kollektionen wird auf unterschiedliche Weise mit Texturen und Strukturen gespielt. Dadurch entstehen subtile Nuancen oder explizite Effekte an Wänden. Zum Beispiel durch die Kombination von steinmatten und glänzenden Fliesen oder durch Reliefs. Speziell für Blend, Lines und Change wurde eine neue steinmatte Glasur mit deutlich spürbarer Oberfläche entwickelt. In der Lines-Reihe wird die spürbare Glasur mit einer abgestuften Oberfläche kombiniert. So entsteht ein besonderes Spiel von Licht und Schatten. In der Change-Reihe wird diese Kombination aus matt und glänzend bzw. matt und matt in die Glasurschicht integriert.

In de collecties wordt op verschillende manieren gespeeld met textuur en structuur. Voor subtile nuances of uitgesproken effecten in de wand. Bijvoorbeeld door combinatie van steenmatte en glanzende tegels of door reliëf. Speciaal voor Blend, Lines en Change is een nieuwe steenmatte glazuur met hoge tactiliteit ontwikkeld. Bij Lines is het tactiele glazuur gecombineerd met een verdiept vlak. Dit daagt uit voor een spel van licht en schaduw. Bij Change is deze mat-glans- en mat-mat-combinatie geïntegreerd in de glazuurlaag.

Les collections permettent de jouer de plusieurs façons sur la texture et la structure, pour rechercher des nuances subtiles ou des effets bien marqués sur le mur. Par exemple, en combinant des carreaux mat pierre et brillants ou en créant du relief. Un nouvel émail mat pierre à haute tactilité a été spécialement développé pour les séries Blend, Lines et Change. Dans la série Lines, l'émail tactile, se combinant à une surface en creux, crée un jeu d'ombre et de lumière. Dans la série Change, la combinaison mat-brillant et mat-mat est intégrée dans la couche d'émail.

Grids and patterns

Mosa Murals are vivid ceramic walls based on a tile grid of one or more sizes that are filled with a selection of tones, surfaces or colours. The resulting pattern is either rhythmic or random. The joint grid and the tiles are integrated into one harmonious and distinctive pattern: a mural. The result is a surprising wall pattern with identity and relief.

Grids and sizes play a large role in Mosa Murals. They form the basis for the result, the pattern, or mural, on the wall. Scale down with the sizes 15 x 15, 15 x 30 and 30 x 30 cm, or a combination thereof. Scale up with thicker tiles of 30 x 30 and 30 x 60 cm.

Mosa Murals sind lebendige keramische Flächen, die aus einem Raster mit Fliesen in einem oder mehreren Formaten bestehen, das mit ausgewählten Farbtönen, Oberflächen oder Farben gefüllt wird. Die Muster sind rhythmisch oder nach dem Zufallsprinzip zustande gekommen. Das Fugenschema und die Fliesen bilden ein harmonisches und einzigartiges Muster: ein Mural. Das Ergebnis ist erstaunlich: ein vielschichtiges Wandmuster mit eigener Identität.

Raster und Formate spielen bei Mosa Murals eine große Rolle. Sie bilden die Grundlage für das Ergebnis, das Muster oder, mit anderen Worten, das Mural an der Wand. Mit den (kombinierten) Formaten 15 x 15, 15 x 30 und 30 x 30 cm lassen sich kleinere Motive erstellen. Für größere Motive eignen sich die Fliesen im Format 30 x 30 und 30 x 60 cm mit einer Stärke von 10 mm.

Mosa Murals zijn levendige keramische wanden die zijn opgebouwd uit een tegelgrid in één of meer formaten dat wordt ingevuld met een selectie van kleurtonen, oppervlakken of kleuren. Ritmisich of random. Het voegenstramien en de tegels worden geïntegreerd tot één harmonieus en onderscheidend patroon: een mural. Het resultaat is verrassend: een wandpatroon met identiteit en gelaagdheid.

Grids en formaten spelen een grote rol bij Mosa Murals. Zij vormen de basis voor het resultaat, het patroon of, anders gezegd, de mural in de wand. Schaal naar kleiner met (een combinatie van) de formaten 15 x 15, 15 x 30 en 30 x 30 cm. Of naar groter met de dikkeren tegels van 30 x 30 en 30 x 60 cm.

Mosa Murals, ce sont des murs en céramique dont l'impression de mouvement est donnée par l'assemblage de carreaux d'un ou plusieurs formats dans différentes nuances, surfaces ou couleurs. Les motifs sont disposés selon un certain rythme ou de façon aléatoire. La trame des joints et les carreaux forment un dessin distinct harmonieux : un mural. Le résultat est étonnant : la stratification et le caractère unique du mur.

Les trames et les dimensions jouent un rôle important pour les Mosa Murals. Elles sont à la base du résultat, du dessin, du mural sur le mur. Plus petites avec des formats 15 x 15, 15 x 30 et 30 x 30 cm. Plus grandes avec des carreaux plus épais de 30 x 30 et 30 x 60 cm.

Mosa Murals Service Desk

All questions and requests for support or samples go through the Mosa Murals Service Desk. Call +31 (0)43 368 92 29 or visit www.mosa.nl.

Blend

The Blend collection was designed and developed to allow tiles to be mixed into a ceramic whole with its own identity and signature. The heart of the collection is formed by uni-tiles grouped into colour families, and into colour tones within each family. These colour tones were selected so they can be combined not only with each other, but also with tones from other colour families. There are three colour family groups. The first group consists of white and grey tone families in 15 x 15, 15 x 30 and 30 x 30 cm tiles, in stonematt and glossy (thickness 7 mm). The second group is like the first, but in the sizes 30 x 30 and 30 x 60 cm (thickness 10 mm). The third group consists of stone-matt colour families, in the sizes 15 x 15 and 15 x 30 cm (thickness 7 mm). Mixing colour groups, sizes, and gloss gradations within the grids determines the Blend mural's ultimate character.

Die Blend-Kollektion wurde mit dem Ziel entworfen und entwickelt, Fliesen miteinander zu kombinieren, um ein keramisches Gesamtbild mit einem eigenen Charakter und einer eigenen Note zu schaffen. Grundlage der Kollektion sind Uni-Fliesen, die nach Farbfamilien und innerhalb der Farbfamilien nach Farbtönen sortiert sind. Diese Farbtöne sind sorgfältig aufeinander abgestimmt, sodass sie gut miteinander, aber auch mit Farbtönen aus anderen Farbfamilien, kombiniert werden können. Die Farbfamilien sind in drei Gruppen aufgeteilt. Die erste Gruppe besteht aus einer Familie von Weiß- und Grautönen in den Formaten 15 x 15, 15 x 30 und 30 x 30 cm, steinmatt und glänzend (Stärke: 7 mm). Die zweite Gruppe ist mit der ersten Gruppe identisch, aber die Formate sind 30 x 30 und 30 x 60 cm (Stärke: 10 mm). Die dritte Gruppe besteht aus Farbfamilien in Steinmatt in den Formaten 15 x 15 und 15 x 30 cm (Stärke: 7 mm). Die Kombination der Farbgruppen, Formate und Glanzstufen innerhalb des Rasters bestimmt schließlich den Charakter des Blend-Murals.

De Blend collectie is ontworpen en ontwikkeld vanuit de visie om tegels met elkaar te mixen tot een keramisch totaalbeeld met een eigen karakter en een signatuur. Basis van de collectie zijn unitegels verdeeld in kleurfamilies en binnen een kleurfamilie in kleurtonen. Deze kleurtonen zijn subtiel op elkaar afgestemd, zodat ze goed met elkaar, maar ook met kleurtonen uit andere kleurfamilies kunnen worden gemengd. De kleurfamilies zijn verdeeld over drie groepen. De eerste groep bestaat uit een familie van wit- en grijstonen in de formaten 15 x 15, 15 x 30 en 30 x 30 cm, in steenmat en glans (7 mm dik). De tweede groep is als de eerste groep, maar in de formaten 30 x 30 en 30 x 60 cm (10 mm dik). De derde groep bestaat uit kleurfamilies in steenmat, in de formaten 15 x 15 en 15 x 30 cm (7 mm dik). Het mengen van kleurgroepen, formaten en glansgradaties binnen de grids bepaalt het uiteindelijke karakter van de Blend mural.

La collection Blend est conçue et développée afin de permettre le mélange des carreaux entre eux pour obtenir un ensemble de céramiques de caractère tout à fait singulier. A la base de la collection, des carreaux unis répartis en familles de couleurs, elles-mêmes subdivisées en nuances s'accordant de façon subtile entre elles ou avec des nuances d'autres familles. Ces familles de couleurs comportent trois groupes. Le premier est constitué des tons blancs et gris dans les formats 15 x 15, 15 x 30 et 30 x 30 cm, en mat pierre et brillant (7 mm d'épaisseur). Le deuxième est semblable au premier, mais dans les formats 30 x 30 et 30 x 60 cm (10 mm d'épaisseur). Le troisième groupe est constitué de familles de couleurs en mat pierre dans les formats 15 x 15 et 15 x 30 cm (7 mm d'épaisseur). Le mélange des groupes de couleurs, des formats et des dégradés de brillant des trames donne son caractère fini au mural Blend.

Rhythm or random

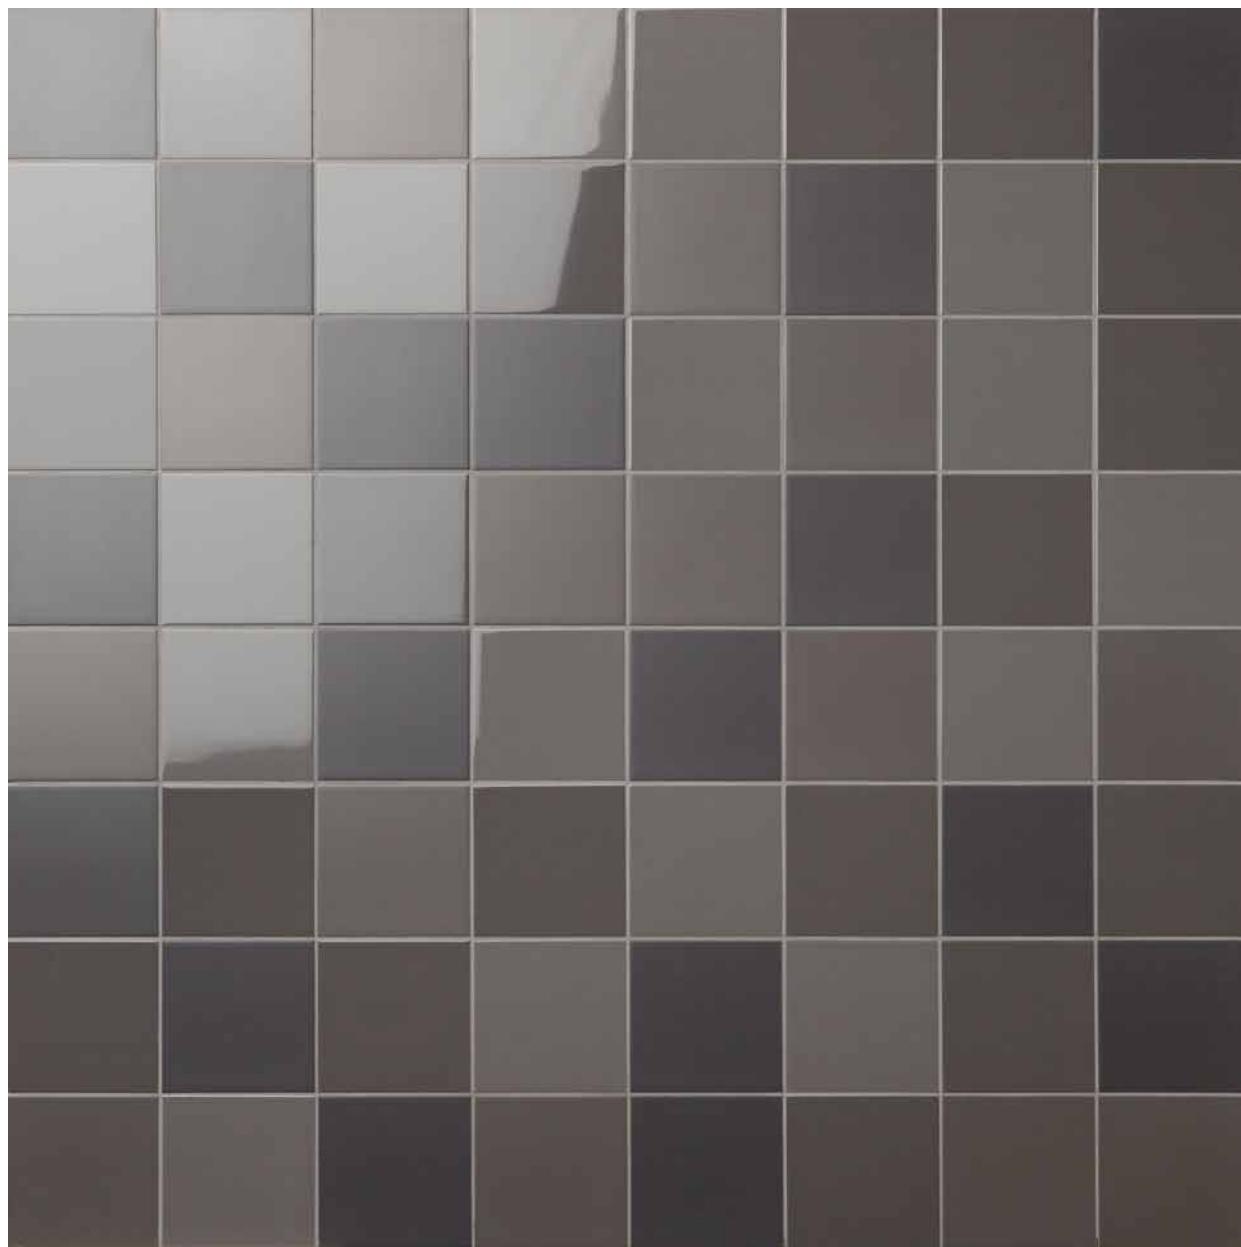

The Blend grid can be filled in two ways. Rhythm: a repeating colour pattern that creates a rhythm on the wall. Random: the colour grid is filled at random. This results in a more natural ceramic effect. The ceramic wall is filled at random based on tile percentages the designer has chosen. The Mosa Murals Generator includes a special tool with a randomise function to achieve this effect.

Ein Raster der Blend-Kollektion kann auf zwei Arten mit Fliesen gefüllt werden. Rhythmische Raster erhalten ein Farbmuster, das sich in der Wand wiederholt, sodass ein Rhythmus entsteht. Bei Zufallsrastern geschieht die Farbzusammensetzung des Rasters willkürlich. So wird der Keramikeffekt der Wand natürlicher. Die Keramikwand wird anhand der vom Designer festgelegten Anteile der Fliesen willkürlich zusammengesetzt. Der Mosa Murals Generator bietet für solche Zwecke ein besonderes Werkzeug mit einer Zufallsfunktion.

Bij Blend kan een bepaald grid op twee manieren worden ingevuld met tegels. Bij rhythm gebeurt dit met een kleurrapport dat zich herhaalt in de wand, zodat een ritme ontstaat. Bij random is de kleur-invulling van een bepaald grid willekeurig. Het keramisch effect van de wand wordt dan natuurlijker. De keramische wand wordt op basis van de door de ontwerper bepaalde percentages van tegels willekeurig ingevuld. De Mosa Murals Generator bevat hiervoor een speciale tool met randomize functie.

Les carreaux Blend peuvent former des assemblages de deux manières différentes. Soit en cherchant à donner un rythme au mur par l'association répétée de couleurs. Soit en agençant la trame de façon aléatoire. L'aspect céramique plus naturel du mur est obtenu par la pose aléatoire des carreaux dans la trame, en suivant les pourcentages définis par le créateur. Le Mosa Murals Generator comprend un outil spécial avec une fonction aléatoire.

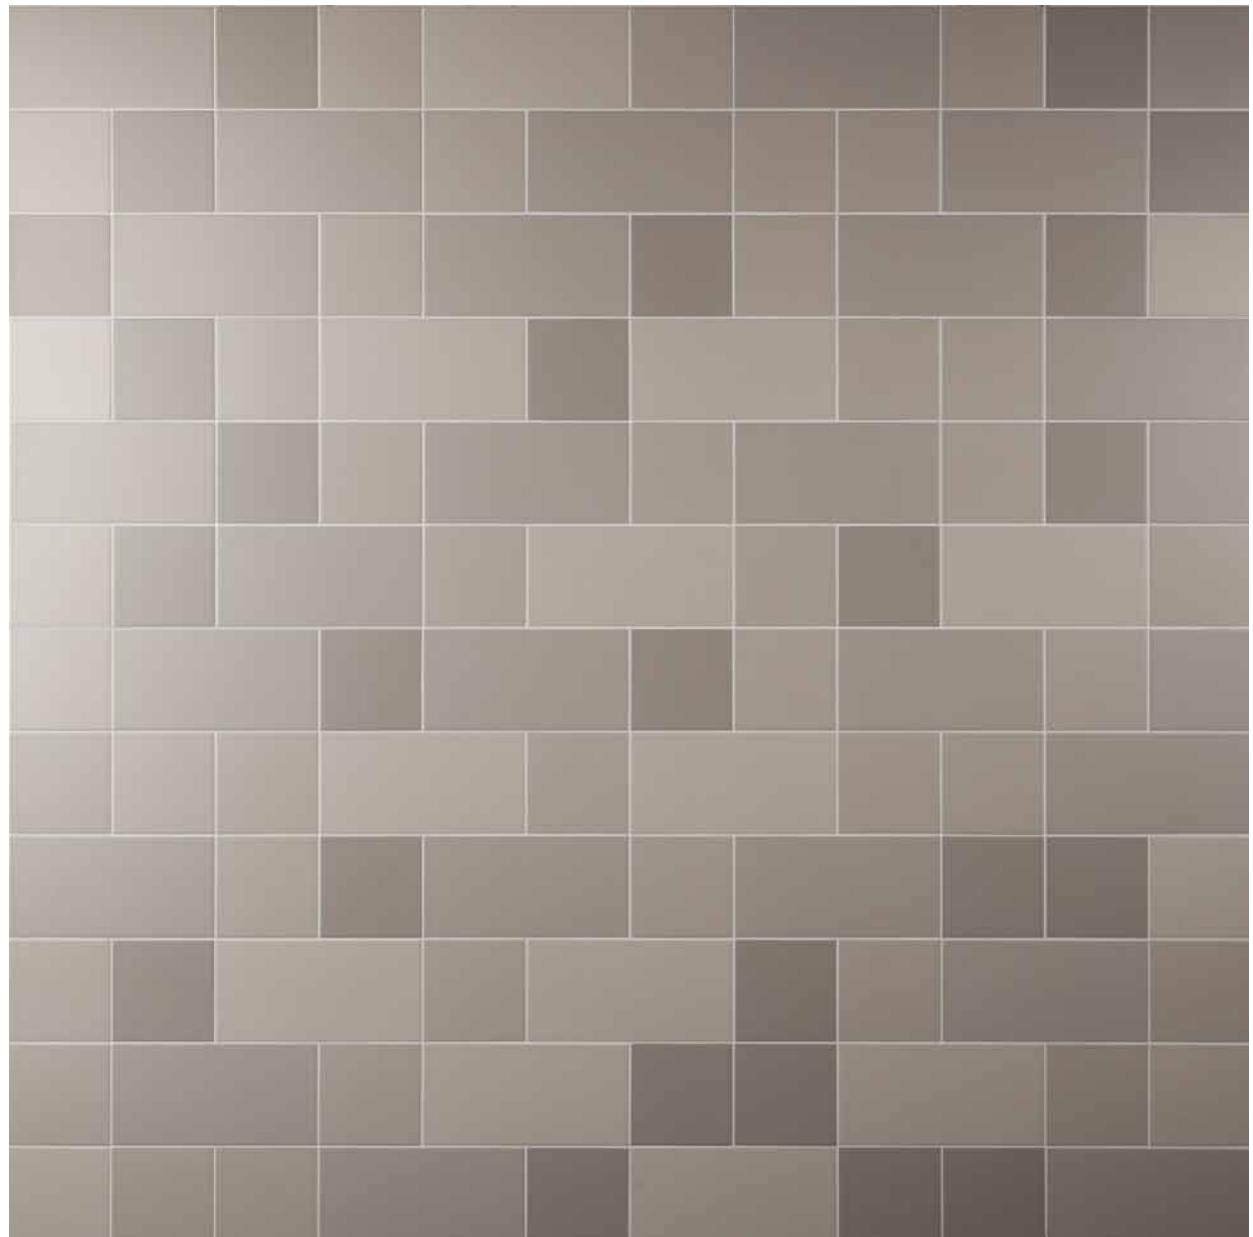

random

Sizes and scale

Blend is created from two size groups: large and small, and grids and patterns can be scaled to match. Patterns are available in tile sizes 15 x 15, 15 x 30 and/or 30 x 30 cm (all tiles are 7 mm thick). If a larger scale is required, Mosa has tiles in 30 x 30 and 30 x 60 cm that are 10 mm thick.

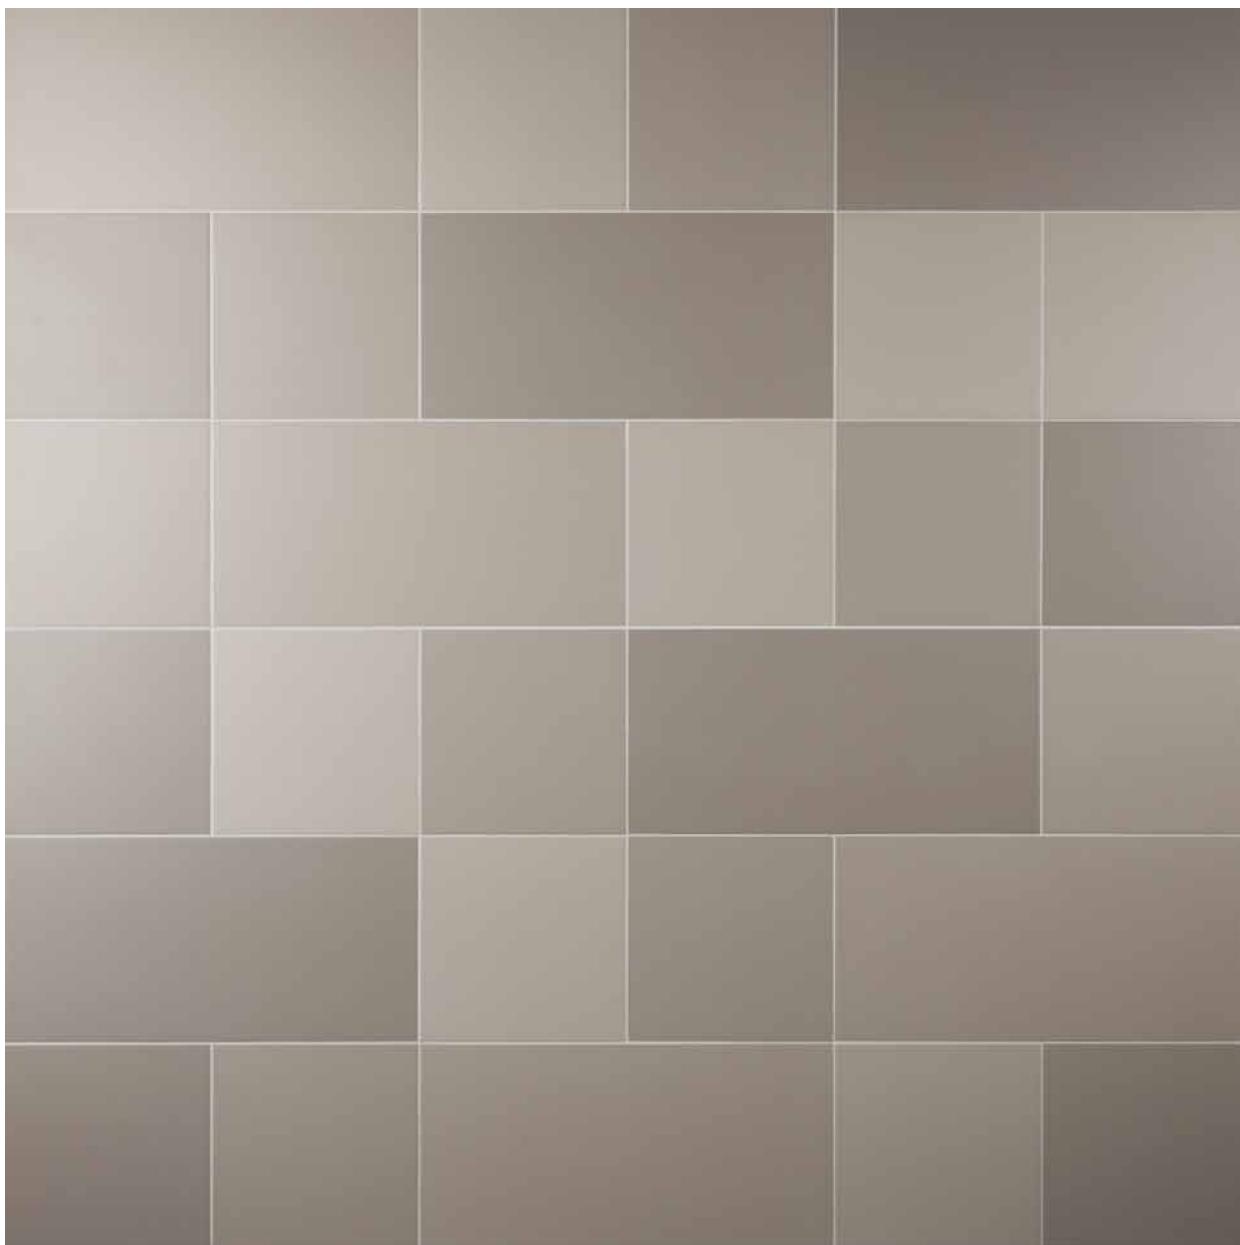

Blend wird aus zwei Formatgruppen gebildet: klein und groß. Raster und Muster können skaliert werden. Muster werden mit Fliesen in den Formaten 15 x 15, 15 x 30 und/oder 30 x 30 cm (Stärke: 7 mm) und für größere Anwendungen mit Fliesen in den Formaten 30 x 30 und 30 x 60 cm (Stärke: 10 mm) hergestellt.

Blend wordt gecreëerd uit twee formaat-groepen: klein en groot. Grids en patronen kunnen zo worden geschaald. Patronen worden gemaakt met tegels in 15 x 15, 15 x 30 en/of 30 x 30 cm (7 mm dik) of voor een grotere schaal in 30 x 30 en 30 x 60 cm (10 mm dik).

15 x 15 cm / 6 x 6 inch, 15 x 30 cm / 6 x 12 inch

Blend est composé de deux groupes de formats : petits et grands. Les trames et gabarits peuvent être gradués. Les gabarits sont réalisés avec des carreaux 15 x 15, 15 x 30 et / ou 30 x 30 cm (7 mm d'épaisseur) ou plus grands, 30 x 30 et 30 x 60 cm (10 mm d'épaisseur).

30 x 30 cm / 12 x 12 inch, 30 x 60 cm / 12 x 24 inch

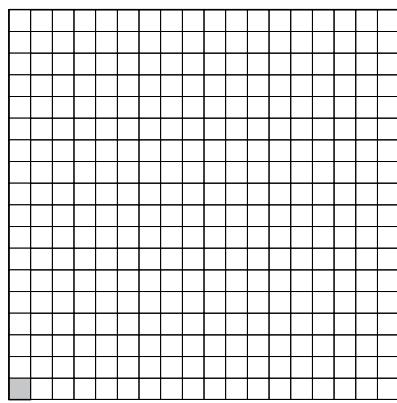

Grids Blend

The Mosa Design Team has developed a number of grids, divided over two size groups. These grids are also included in the online Mosa Murals Generator.

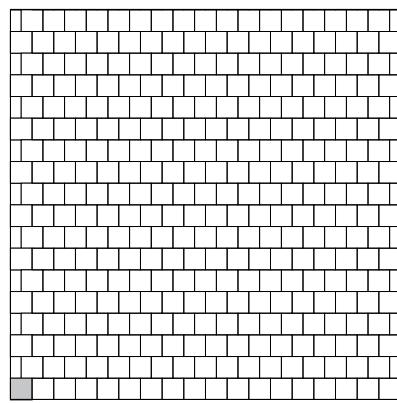

Das Mosa Design Team hat zahlreiche Raster entwickelt, die auf die zwei Formatgruppen verteilt sind. Diese Raster sind auch online im Mosa Murals Generator zu finden.

Het Mosa Design Team heeft een groot aantal grids ontwikkeld. Verdeeld over de twee formaatgroepen. Deze grids staan ook in de online Mosa Murals Generator.

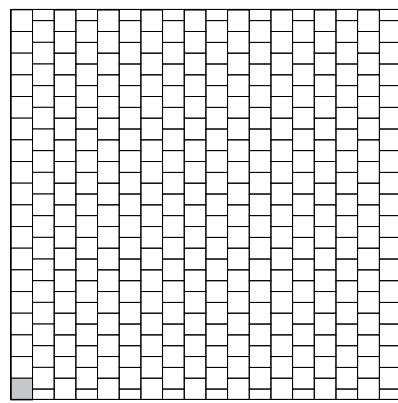

Le Mosa Design Team a développé un grand nombre de trames, réparties dans les deux groupes de formats. Ces trames se retrouvent sur le Mosa Murals Generator en ligne.

Creating Blend murals

All elements are united in the mural design. Choose the colour tones and stonematt-gloss combination. Select a size combination and a grid. Determine whether the filling of the grid will be rhythmic or random. Choose the tile percentages to be applied. Use the Mosa Murals Generator or select a pattern from the Mosa Murals Library or this book.

Bei der Erstellung eines Murals werden alle Elemente miteinander kombiniert. Die Farbtöne und eine Kombination aus steinmatten und glänzenden Fliesen können ausgewählt werden. Anschließend muss eine Kombination von Formaten und ein Raster ausgewählt werden. Zur Auswahl stehen rhythmische oder Zufallsmuster zur Verfügung. Nun müssen die Anteile der zu verwendenden Fliesen festgelegt werden. Dafür stehen der Mosa Murals Generator sowie die Muster in der Mosa Murals Library oder in diesem Buch zur Verfügung.

Bij het ontwerp van een mural komen alle elementen bij elkaar. Kies kleurtonen en gewenste steenmat-glans combinatie. Selecteer formaatcombinatie en een grid. Bepaal of de invulling ritmisch of random wordt. Kies het percentage van de tegels die passen bij het ontwerp. Gebruik bij het ontwerp de Mosa Murals Generator, of selecteer een patroon uit de Mosa Murals Library of dit boek.

one tone / three sizes

Tous les éléments se combinent lors de la création d'un mural. Choisissez les nuances et la combinaison mat pierre-brillant souhaitée. Sélectionnez ensuite les formats à associer et une trame.

Déterminez si le remplissage sera rythmé ou aléatoire. Choisissez le pourcentage des carreaux à appliquer. Pour la création, utilisez le Mosa Murals Generator ou sélectionnez un gabarit dans la Mosa Murals Library ou dans ce catalogue.

Guidelines for installation

Floor tile advice

The Blend wall tiles combine perfectly with the Mosa Beige & Brown, Global Collection, Greys® and Terra Maestricht® floor tiles in terms of modularity and colour. The complete floor tile advices can be found on www.mosa.nl, chapter 'Collection'.

Joint advice

Mosa recommends that the colour of the joint matches as closely as possible to the lightest tile colour in the pattern. The complete joint advices can be found on www.mosa.nl, chapter 'Documentation'.

Lighting directions

Mosa observes strict standards regarding the flatness and straightness of its wall tiles. A 100% flat surface and smooth joints are also required for a good result. However, if side lighting is used for the light source then minor deviations may be unintentionally accentuated. For this reason Mosa recommends placing the light source at least 50 cm away from the wall.

Guidelines for installation

The complete guidelines for installation can be found on www.mosa.nl, chapter 'Documentation'.

Empfehlung zu Bodenfliesen

Die Blend-Wandfliesen passen durch Modulaufbau und Farben gut zu den Bodenfliesen der Mosa-Kollektionen Beige & Brown, Global Collection, Greys® und Terra Maestricht®. Für komplette Empfehlungen zu Bodenfliesen siehe www.mosa.nl, Kapitel 'Kollektion'.

Empfehlung zu Fugen

Mosa empfiehlt, die Fugenfarbe nach Möglichkeit so auszuwählen, dass sie mit den Fliesen mit der hellsten Farbe übereinstimmt, die im Muster verwendet werden. Für komplette Empfehlungen zu Fugen siehe www.mosa.nl, Kapitel 'Dokumentation'.

Beleuchtungsempfehlung

Für die Ebenheit und die Geraadlinigkeit der Wandfliesen von Mosa gelten strenge Normen. Eine weitere Voraussetzung für ein gutes Ergebnis sind ein zu 100% ebener Untergrund und lineare Fugen. Wird Streiflicht als Lichtquelle verwendet, ist damit zu rechnen, dass geringe Abweichungen unabsichtlich hervorgehoben werden. Daher empfiehlt Mosa, Lichtquellen mindestens 50 cm von der Wand entfernt anzubringen.

Hinweise zur Verlegung

Für komplette Hinweise zur Verlegung siehe www.mosa.nl, Kapitel 'Dokumentation'.

Vloertegeladvies

De wandtegels van Blend passen modular en qua kleur goed bij vloertegels uit de Mosa collecties Beige & Brown, Global Collection, Greys® en Terra Maestricht®. Voor uitgebreide vloertegeladviezen zie www.mosa.nl, hoofdstuk 'Collectie'.

Voegadvies

Mosa adviseert om de voegkleur zoveel mogelijk af te stemmen op de lichtste kleur tegel die in het patroon gebruikt wordt. Voor uitgebreide voegadviezen zie www.mosa.nl, hoofdstuk 'Documentatie'.

Lichtadvies

Mosa hanteert strenge normen met betrekking tot de vlakheid en rechtlijnigheid van wandtegels. Voor een goed resultaat zijn een 100% vlakke ondergrond en strak voegwerk ook een vereiste. Bij strijklicht als lichtbron kunnen echter geringe afwijkingen ongewild geaccentueerd worden. Daarom adviseert Mosa plaatsing van de lichtbron op minimaal 50 cm vanaf de wand.

Verwerkingsadviezen

Voor uitgebreide verwerkingsadviezen zie www.mosa.nl, hoofdstuk 'Documentatie'.

Conseil pour carreaux de sol

D'un point de vue conception et couleurs, les carreaux muraux de Blend s'assortissent parfaitement aux carreaux de sol des collections Mosa Beige & Brown, Global Collection, Greys® et Terra Maestricht®. On peut trouver tous les conseils pour carreaux de sol sur www.mosa.nl, chapitre 'Collection'.

Conseil pour les joints

Mosa conseille d'accorder autant que possible la couleur du joint avec celle du carreau le plus clair utilisé sur le gabarit. On peut trouver tous les conseils pour les joints sur www.mosa.nl, chapitre 'Documentation'.

Précaution de positionnement de l'éclairage après pose

Mosa applique des normes strictes en ce qui concerne la planéité et la rectitude des carreaux muraux. Pour un résultat optimal, la surface doit être totalement lisse et les joints doivent être droits. L'utilisation d'une lumière rasante peut cependant accentuer de manière involontaire les légères irrégularités. Mosa conseille donc de placer la source lumineuse à au moins 50 cm du mur.

Directives de pose

On peut trouver toutes les directives de pose sur www.mosa.nl, chapitre 'Documentation'.

Environment

Environmental characteristics

Blend tiles are Cradle to Cradle® Silver certified. Blend tiles contain at least 22% pre-consumer recycled material and contribute to obtaining LEED credits. Mosa is an ISO 14001 and ISO 9001 certified organisation.

Umweltschutz

Die Blend-Fiesen sind gemäß Cradle to Cradle® Silver zertifiziert. Die Blend-Fiesen enthalten zu mehr als 22% unbenutzte Recycling-Materialien und tragen zu LEED-Credits bei. Mosa ist gemäß ISO 14001 und ISO 9001 zertifiziert.

Milieu-eigenschappen

Blend tegels zijn Cradle to Cradle® Silver gecertificeerd. Blend tegels bevatten meer dan 22% pre-consumer gerecycled materiaal en dragen bij aan het verkrijgen van LEED credits. Mosa is een ISO 14001 en ISO 9001 gecertificeerde organisatie.

Caractéristiques environnementales

Les carreaux Blend sont certifiés Cradle to Cradle® Silver. Les carreaux Blend comprennent plus de 22 % de matériaux recyclés de pré-consommation et contribuent à l'obtention de crédits LEED. Mosa est une entreprise certifiée ISO 14001 et ISO 9001.

Technical properties

Blend tiles comply with EN 14411 BIII and KOMO-, CE- and ASTM certifications. Blend tiles have one glazed side as standard. The tiles are produced using the Mosa double-firing system.

Technische Eigenschaften

Die Blend-Fiesen sind gemäß EN 14411 BIII, KOMO, CE und ASTM zertifiziert. Die Blend-Fiesen verfügen standardmäßig über eine glasierte Seite. Die Fliesen werden im Mosa Zweibrandverfahren hergestellt.

Technische eigenschappen

Blend tegels voldoen aan EN 14411 BIII en KOMO-, CE- en ASTM-keur. Blend tegels zijn standaard voorzien van één geglaazuurde zijkant. De tegels worden geproduceerd met het Mosa double-firing-systeem.

Caractéristiques techniques

Les carreaux Blend répondent à la norme EN 14411 BIII et sont certifiés KOMO, CE et ASTM. Les carreaux Blend sont livrés de série avec un côté émaillé. Produits au moyen du système de bicusson Mosa.

Mosa tiles are produced under the following standards.

Mosa-Fiesen werden nach den folgenden Standards hergestellt.

De productie van Mosa tegels voldoet aan de volgende normen.

Les carreaux de Mosa sont produits dans le respect des normes suivantes.

Lines

The Lines series features a tile with a recessed, asymmetrical surface. The effect of light and shadow gives the wall additional depth, something that just one Lines tile can achieve on its own. The recessed surface is different on each tile, which allows staggered, geometrical structures - vivid yet ordered. Every variant of every item is packaged randomly. The twelve items come in seven different colours and three sizes: 15 x 15, 15 x 30 and 30 x 30 cm. The bright white tiles come in glazed, stonematt or gloss finishes. The remaining colours and sizes come in a stonematt finish. Lines walls combine perfectly with Blend walls, as the colours have been harmonised. Use the Mosa Murals Generator to create a design or select a pattern from the Mosa Murals Library or this book.

Die Fliesen der Lines-Kollektion weisen eine abgestufte, asymmetrische Oberfläche auf. Das Spiel von Licht und Schatten verleiht Ihrer Wand zusätzliche Tiefe. Dieser Effekt stellt sich bereits bei nur einem Artikel aus der Lines-Kollektion ein. Die vertieften Flächen sind von Fliese zu Fliese unterschiedlich angebracht. Die verschachtelten geometrischen Strukturen bilden auf diese Weise dezente, aber lebendige Wände. Alle Varianten eines Artikels werden nach dem Zufallsprinzip kombiniert und verpackt. Die Kollektion umfasst zwölf Artikel in sieben Farben und drei Formaten: 15 x 15, 15 x 30 und 30 x 30 cm. Die bright white Fliesen sind steinmatt oder glänzend glasiert. Die übrigen Farben und Formate sind steinmatt glasiert. Lines-Wände lassen sich perfekt mit Blend-Wänden kombinieren. Die Farben sind aufeinander abgestimmt. Dafür stehen der Mosa Murals Generator sowie die Muster in der Mosa Murals Library oder in diesem Buch zur Verfügung.

Lines is een tegel met een verdiept asymmetrisch vlak. De licht- en schaduwwerking geven de wand extra diepte. Dit effect wordt al bereikt met één artikel uit Lines. Van tegel tot tegel is het verdiept vlak verschillend aangebracht. De verspringende geometrische structuren vormen zo decente levendige wanden. Alle varianten per artikel worden random gemixt verpakt. Er zijn twaalf artikelen, in zeven kleuren en drie formaten: 15 x 15, 15 x 30 en 30 x 30 cm. De bright white tegels zijn steenmat of glanzend geglaazuurd. De overige kleuren en maten zijn steenmat geglaazuurd. Lines wanden combineren perfect met Blend wanden. De kleuren zijn op elkaar afgestemd. Gebruik bij het ontwerp de Mosa Murals Generator, of selecteer een patroon uit de Mosa Murals Library of dit boek.

Les carreaux Lines ont une surface asymétrique à deux niveaux qui, combinée au jeu de lumière et d'ombre, donne plus de profondeur au mur. Mosa obtient déjà cet effet au moyen d'un seul article de la collection Lines. La surface à deux niveaux est composée différemment d'un carreau à l'autre. Les structures géométriques décalées créent une animation sur le mur. Toutes les variantes par article sont emballées en mélanges aléatoires. Il y a douze articles en sept couleurs et trois formats : 15 x 15, 15 x 30 et 30 x 30 cm. Les carreaux bright white sont émaillés mat pierre ou brillant. Les autres couleurs et formats sont émaillés mat pierre. Les murs Lines et Blend se combinent parfaitement entre eux, leurs couleurs s'accordant très bien. Pour la création, utilisez le Mosa Murals Generator ou sélectionnez un gabarit dans la Mosa Murals Library ou dans ce catalogue.

Guidelines for installation

Floor tile advice

The Lines wall tiles combine perfectly with the Mosa Beige & Brown, Global Collection, Greys® and Terra Maestricht® floor tiles in terms of modularity and colour. The complete floor tile advices can be found on www.mosa.nl, chapter 'Collection'.

Joint advice

Mosa recommends that the colour of the joint matches as closely as possible to the lightest tile colour in the pattern. The complete joint advices can be found on www.mosa.nl, chapter 'Documentation'.

Guidelines for installation

The complete guidelines for installation can be found on www.mosa.nl, chapter 'Documentation'.

Empfehlung zu Bodenfliesen

Die Lines-Wandfliesen passen durch Modulaufbau und Farben gut zu den Bodenfliesen der Mosa-Kollektionen Beige & Brown, Global Collection, Greys® und Terra Maestricht®. Für komplette Empfehlungen zu Bodenfliesen siehe www.mosa.nl, Kapitel 'Kollektion'.

Empfehlung zu Fugen

Mosa empfiehlt, die Fugenfarbe nach Möglichkeit so auszuwählen, dass sie mit den Fliesen mit der hellsten Farbe übereinstimmt, die im Muster verwendet werden. Für komplette Empfehlungen zu Fugen siehe www.mosa.nl, Kapitel 'Dokumentation'.

Hinweise zur Verlegung

Für komplette Hinweise zur Verlegung siehe www.mosa.nl, Kapitel 'Dokumentation'.

Vloertegeladvies

De wandtegels van Lines passen modular en qua kleur goed bij vloertegels uit de Mosa collecties Beige & Brown, Global Collection, Greys® en Terra Maestricht®. Voor uitgebreide vloertegeladviezen zie www.mosa.nl, hoofdstuk 'Collectie'.

Voegadvies

Mosa adviseert om de voegkleur zoveel mogelijk af te stemmen op de lichtste kleur tegel die in het patroon gebruikt wordt. Voor uitgebreide voegadviezen zie www.mosa.nl, hoofdstuk 'Documentatie'.

Verwerkingsadviezen

Voor uitgebreide verwerkingsadviezen zie www.mosa.nl, hoofdstuk 'Documentatie'.

Conseil pour carreaux de sol

D'un point de vue conception et couleurs, les carreaux muraux de Lines s'assortissent parfaitement aux carreaux de sol des collections Mosa Beige & Brown, Global Collection, Greys® et Terra Maestricht®. On peut trouver tous les conseils pour carreaux de sol sur www.mosa.nl, chapitre 'Collection'.

Conseil pour les joints

Mosa conseille d'accorder autant que possible la couleur du joint avec celle du carreau le plus clair utilisé sur le gabarit. On peut trouver tous les conseils pour les joints sur www.mosa.nl, chapitre 'Documentation'.

Directives de pose

On peut trouver toutes les directives de pose sur www.mosa.nl, chapitre 'Documentation'.

Environment

Environmental characteristics

Lines tiles are Cradle to Cradle® Silver certified. Lines tiles contain at least 22% pre-consumer recycled material and contribute to obtaining LEED credits. Mosa is an ISO 14001 and ISO 9001 certified organisation.

Technical properties

Lines tiles comply with EN 14411 BIII and KOMO-, CE- and ASTM certifications. Lines tiles have one glazed side as standard. The tiles are produced using the Mosa double-firing system.

Umweltschutz

Die Lines-Fliesen sind gemäß Cradle to Cradle® Silver zertifiziert. Die Lines-Fliesen enthalten zu mehr als 22% unbenutzte Recycling-Materialien und tragen zu LEED-Credits bei. Mosa ist gemäß ISO 14001 und ISO 9001 zertifiziert.

Technische Eigenschaften

Die Lines-Fliesen sind gemäß EN 14411 BIII, KOMO, CE und ASTM zertifiziert. Die Lines-Fliesen verfügen standardmäßig über eine glasierte Seite. Die Fliesen werden im Mosa Zweibrandverfahren hergestellt.

Milieu-eigenschappen

Lines tegels zijn Cradle to Cradle® Silver gecertificeerd. Lines tegels bevatten meer dan 22% pre-consumer gerecycled materiaal en dragen bij aan het verkrijgen van LEED credits. Mosa is een ISO 14001 en ISO 9001 gecertificeerde organisatie.

Technische eigenschappen

Lines tegels voldoen aan EN 14411 BIII en KOMO-, CE- en ASTM-keur. Lines tegels zijn standaard voorzien van één geglaazuurde zijkant. De tegels worden geproduceerd met het Mosa double-firing-systeem.

Caractéristiques environnementales

Les carreaux Lines sont certifiés Cradle to Cradle® Silver. Les carreaux Lines comprennent plus de 22 % de matériaux recyclés de pré-consommation et contribuent à l'obtention de crédits LEED. Mosa est une entreprise certifiée ISO 14001 et ISO 9001.

Caractéristiques techniques

Les carreaux Lines répondent à la norme EN 14411 BIII et sont certifiés KOMO, CE et ASTM. Les carreaux Lines sont livrés de série avec un côté émaillé. Produits au moyen du système de bicusson Mosa.

Mosa tiles are produced under the following standards.

Mosa-Fliesen werden nach den folgenden Standards hergestellt.

De productie van Mosa tegels voldoet aan de volgende normen.

Les carreaux de Mosa sont produits dans le respect des normes suivantes.

Change

The Change* collection presents tactile tiled walls with a purely ceramic feel. Using just one Change tile is enough to create this feel. Each tile has been manufactured in a unique 'controlled but random' way, an artisanal fashion, as it were, with a thick layer of glaze on the base glaze. This means that each tile is subtly unique. Every variant of every item is packaged randomly.

The subtle combination of stonematt and gloss gradations on just one Change tile gives each Change wall a unique identity. Strengthen the colour surface by combining two matt glazes on the Change tile.

There are seven colour combinations in four sizes: 15 x 15, 15 x 30, 30 x 30 and 30 x 60 cm. The Change collection colours match the Blend series. Use the Mosa Murals Generator to create a design or select a pattern from the Mosa Murals Library or this book.

Spürbare Fliesenwände, die sich nach echter Keramik anfühlen. Bereits ein einziger Change*-Artikel schafft dieses Gefühl in einer Wand. Bei jeder Fliese wird in einem besonderen Verfahren, bedingt zufällig, wie bei echter Handarbeit, ein dicker Glasurstreifen auf die Basisglasur aufgetragen. Dadurch fallen die Fliesen unterschiedlich aus. Alle Varianten eines Artikels werden nach dem Zufallsprinzip kombiniert und verpackt.

Die subtile Kombination von steinmatten und glänzenden Elementen in einer einzigen Change-Fliese macht Wände mit Change-Fliesen so lebendig und besonders. Mit einer Kombination aus zwei matten Glasuren in einer Change-Fliese wird die Farbfläche verstärkt.

Es gibt sieben Farbkombinationen in vier Formaten: 15 x 15, 15 x 30, 30 x 30 und 30 x 60 cm. Die Farben der Change-Fliesen sind auf die Farben der Blend-Fliesen abgestimmt. Daher lassen Change-Wände sich perfekt mit Blend-Wänden kombinieren. Dafür stehen der Mosa Murals Generator sowie die Muster in der Mosa Murals Library oder in diesem Buch zur Verfügung.

Tactiele tegelwanden met een puur keramisch gevoel. Het gebruik van één Change* artikel creëert dit gevoel al in de wand. Op elke tegel is via een unieke techniek, op een beheerst willekeurige manier, als ware het ambachtelijk, een dikke glazuurveeg aangebracht op het basisglazuur. De tegels verschillen hierdoor onderling enigszins. Alle varianten per artikel worden random gemixt verpakt.

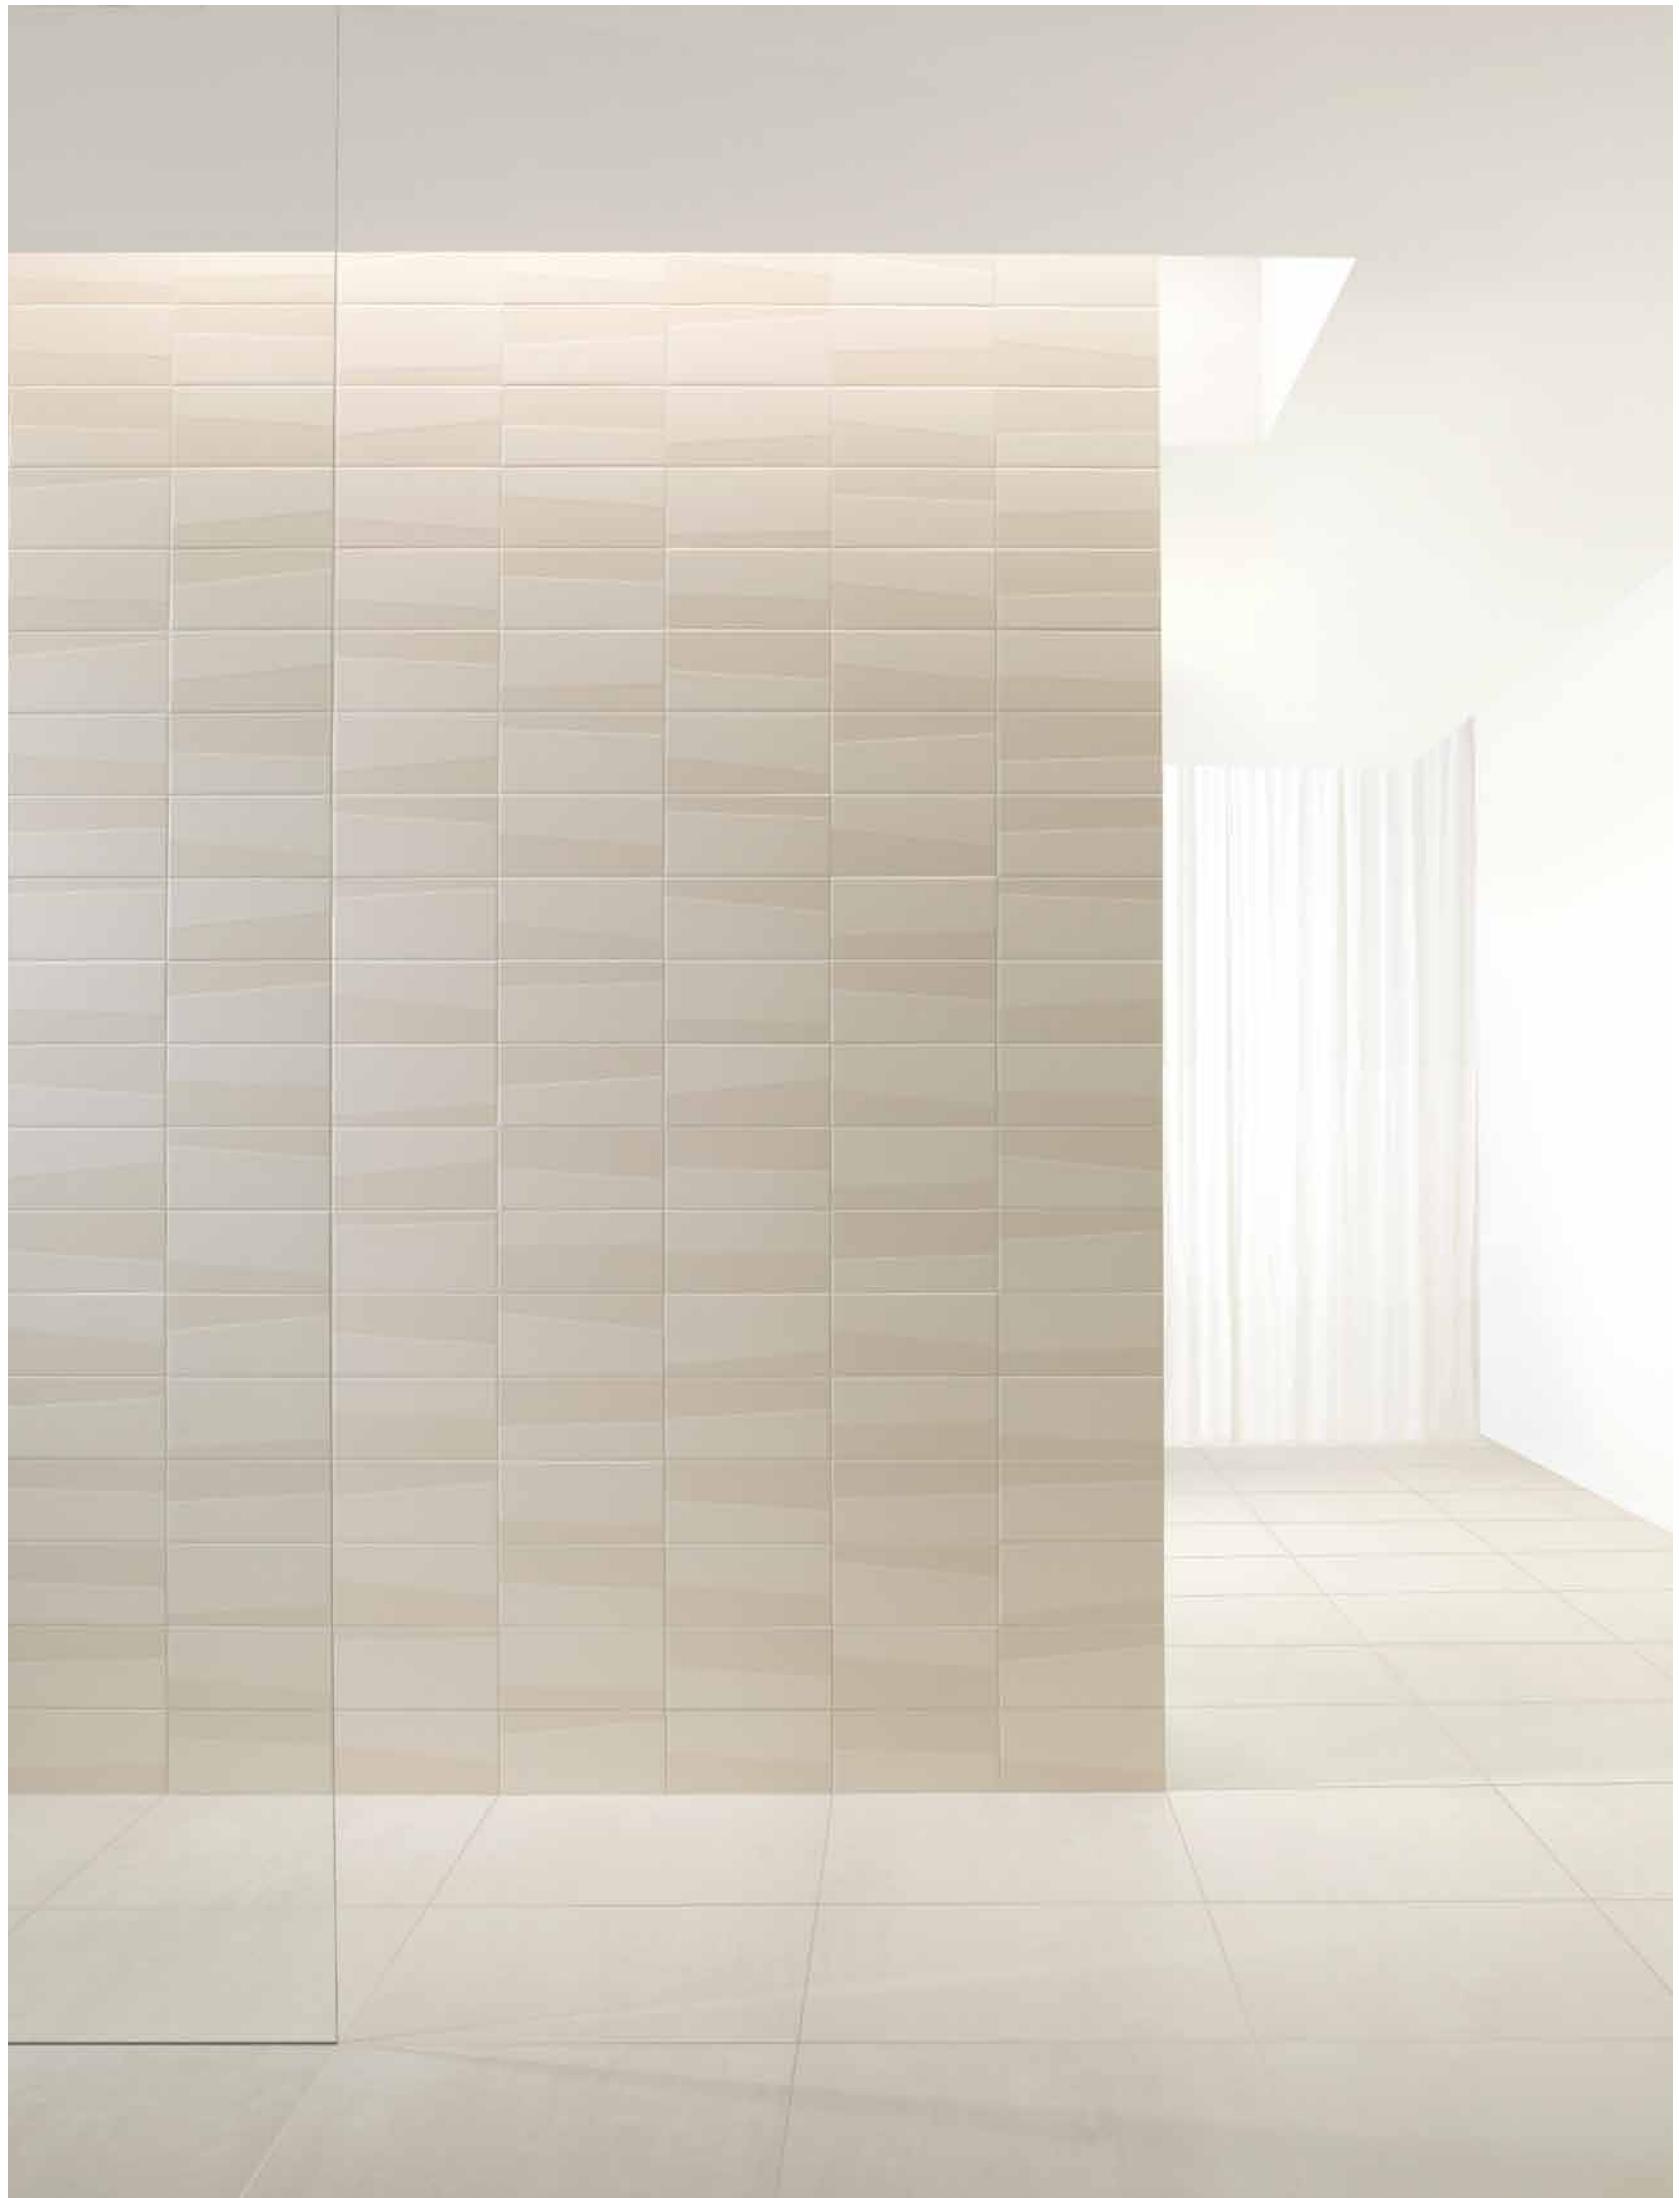

De subtile combinatie in glansgradaties van steenmat en glans in één Change tegel maken Change wanden zo sprekend en uniek. Met een combinatie van twee matte glazuren in de Change tegel wordt het kleurvlak versterkt.

Er zijn zeven kleurencombinaties, in vier formaten: 15 x 15, 15 x 30, 30 x 30 en 30 x 60 cm. De kleuren van Change zijn afgestemd op de kleuren van Blend. Change wanden kunnen daarom perfect met Blend wanden worden gecombineerd. Gebruik bij het ontwerp de Mosa Murals Generator, of selecteer een patroon uit de Mosa Murals Library of dit boek.

Des carreaux tactiles pour une impression céramique parfaite. L'utilisation d'un seul article Change* sur un mur crée déjà cette sensation. Un épais balayage de l'email est appliqué sur la base de chaque carreau au moyen d'une technique exclusive maîtrisée, bien qu'elle puisse sembler artisanale. Les carreaux diffèrent quelque peu entre eux. Toutes les variantes par article sont emballées en mélanges aléatoires.

La subtile association de dégradés de brillant de mat pierre et brillant dans un même carreau Change confère son caractère expressif et unique au mur. La combinaison de deux couches d'email mat renforce la surface colorée du carreau Change.

Il existe sept combinaisons de couleurs en quatre formats : 15 x 15, 15 x 30, 30 x 30 et 30 x 60 cm. Les couleurs de Change sont assorties à celles de Blend. Les murs Change peuvent donc parfaitement se combiner avec les murs Blend. Pour la création, utilisez le Mosa Murals Generator ou sélectionnez un gabarit dans la Mosa Murals Library ou dans ce catalogue.

Change tiles comply with EN 14411 BIII and KOMO-, CE- and ASTM certifications. The tiles are produced using the Mosa double-firing system.

Umweltschutz

Die Change-Fliesen sind gemäß Cradle to Cradle® Silver zertifiziert. Die Change-Fliesen enthalten zu mehr als 22% unbenutzte Recycling-Materialien und tragen zu LEED-Credits bei. Mosa ist gemäß ISO 14001 und ISO 9001 zertifiziert.

Technische Eigenschaften

Die Change-Fliesen sind gemäß EN 14411 BIII, KOMO, CE und ASTM zertifiziert. Die Fliesen werden im Mosa Zweibrandverfahren hergestellt.

Milieu-eigenschappen

Change tegels zijn Cradle to Cradle® Silver gecertificeerd. Change tegels bevatten meer dan 22% pre-consumer gerecycled materiaal en dragen bij aan het verkrijgen van LEED credits. Mosa is een ISO 14001 en ISO 9001 gecertificeerde organisatie.

Technische eigenschappen

Change tegels voldoen aan EN 14411 BIII en KOMO-, CE- en ASTM-keur. De tegels worden geproduceerd met het Mosa double-firing-systeem.

Caractéristiques environnementales

Les carreaux Change sont certifiés Cradle to Cradle® Silver. Les carreaux Change comprennent plus de 22 % de matériaux recyclés de pré-consommation et contribuent à l'obtention de crédits LEED. Mosa est une entreprise certifiée ISO 14001 et ISO 9001.

Caractéristiques techniques

Les carreaux Change répondent à la norme EN 14411 BIII et sont certifiés KOMO, CE et ASTM. Produits au moyen du système de bicusson Mosa.

Mosa tiles are produced under the following standards.

Mosa-Fliesen werden nach den folgenden Standards hergestellt.

De productie van Mosa tegels voldoet aan de volgende normen.

Les carreaux de Mosa sont produits dans le respect des normes suivantes.

* Design by Ina Matt & Mosa Design Team
 Tile colour approaches, but is not equal to NCS code.
 Mosa does not recommend combining the Blend, Lines and Change series in one wall.
 Shade variations are inherent to ceramic tile manufacturing.
 The complete joint advices can be found on www.mosa.nl, chapter 'Documentation'.
 For more information visit www.mosa.nl.
